PRICE BREAK IS WELCOMED BY SHOPPERS

HOUSEWIVES HOPE CUTS ARE HERE TO STAY

(By The Associated Press)

New York, Feb. 11. (P)—Grain prices came under selling pressure as the Chicago pits opened today and stocks skidded again, although more slowly than in yesterday's widespread break.

It was a week ago today that rising prices had their first decisive drop.

All deliveries of wheat, soybeans and corn fell the limit within a few minutes after trading started.

Hog prices started 50 to 75 cents a hundred pounds higher with the top \$23.25 as arrivals were the smallest for a Wednesday since October 9, 1946, the last week of ceiling prices.

Felt Around World

Reactions to the price breaks, which were violent in commodity and security markets alike yesterday, are being felt around the world.

London stocks slumped; leading issues on the Manila stock exchange were down fractions to \$2, and at Sydney, Australia, share values fell as much as 10 per cent.

The housewife, meanwhile, was paying less for meats, flour, butter and sugar.

An Associated Press survey of retail prices in 25 leading cities show the consumer today is enjoying appreciable markdowns in grocery stores across the nation.

Bacon costs the housewife 10 cents a pound less than a week ago. A ten-pound sack of flour is a dime less. Many meats are down 5 to 6 cents a pound.

Woolens Going Up

Butter is down 4 to 5 cents a pound; lard is 5 to 6 cents a pound less, and shortening has dropped two cents a pound.

Now the consumer wants to know whether the price cuts are

Surf Capsizes Landing Craft; Marines Lost

Oceanside, Calif., Feb. 11. (P)—Two Navy men were killed, a third is missing and 31 were injured when churning surf off Camp Pendleton turned amphibious landing exercises into disaster.

For hours yesterday a two-mile stretch of the beach here looked something like a wartime Pacific island beach head. Three landing craft capsized. Two others are missing and believed sunk. Marines with full equipment swam ashore and sprawled on the beach, exhausted, to "dry out."

Many appeared dead who were not, giving rise to all manner of catastrophe reports. Ambulances assembled. Jeeps shuttled back and forth. Emergency radio equipment was set up. Coast Guard rescue planes joined Marine observation planes, hunting for men struggling in the sea. Destroyers darted in and out.

The Navy identified the dead Marine as Cpl. Sterling E. Dalley, 19, of (Star Troop A) Austin, Tex., and the missing Marine as Cpl. George E. Nolan of (412 Seventh St.) Syracuse, N. Y.

Thirty-one sailors and Marines, including 10 who participated in rescue work, were hospitalized, all suffering from immersion and shock.

The mock landing originally was scheduled for 9 a. m. yesterday. Twice it was postponed briefly because of the heavy seas. Then it was cancelled for the day but by that time 17 LVTs (landing vehicle track) has been launched from mother ships.

Rear Adm. Bertram J. Rodgers, commander of Amphibious Group 1, in charge of the exercises, said a sudden increase of the wind from two to five knots caused the cancellation and made the sea too rough for the transports to recover the landing craft.

The open-decked small craft, each carrying landing parties of 20 to 36 Marines, had to make a run for it through the heavy surf and beach themselves. All but five made it.

OHIO RIVER ICE JAM BREAKS UP

Cincinnati Boat Owners Alerted As Stream Continues To Rise

Cincinnati, Feb. 11. (P)—Boat owners were alerted today for a possible major break-up in the Ohio River ice pack as the stream continued to rise slowly amid predictions of warmer weather.

Two minor breaks occurred last night and Ohio River division engineers said indications were that a "major crackup seems to be developing."

A seven-mile stretch of ice broke up at suburban North Bend, just below Cincinnati, and carried four empty fuel barges 100 yards downstream.

Another ice movement started late in the evening at Chillicothe, 20 miles upstream, but halted after traveling only a short distance.

Meanwhile, two towboats were scheduled to attempt a break-through in a 60-mile ice jam above the Gallipolis, O., roller dam.

The "George M. Verity" of the American Rolling Mill Co., and the "Semet" of the Semet Solvay Co., will try to crash a channel to Pt. Pleasant, W. Va.

If they are successful, the new 1,400-horsepower diesel towboat "Onward" of the O. F. Shearer Co., Winchester, Ky., blocked for several days by ice, will start downstream with a 10-barge tow of coal.

The U. S. Weather Bureau predicted a high temperature of 40 to 45 degrees for Cincinnati today.

Solid South Break-up Too Slow To Do GOP Any Good, Says Pepper

(By The Associated Press)

Senator Pepper (D-Fla.) said today the solid South really may be breaking up.

But if so, he told a reporter, it will be too slow a process to do the Republicans any good in 1948.

"There is no question about it," he declared, "President Truman will carry every state in the South again this year."

Pepper said recent angry protests against the president's civil rights program, however, mark a shift away from solid southern Democratic support in future years.

"After all," he said, "we find there is not much difference often between the so-called Southern Conservative Democrats and the Northern Republicans."

Meanwhile Gov. Fielding Wright of Mississippi said he is determined to keep the southern protest alive. He told a news conference there will be a meeting of southern Democrats to decide how party leaders who back "anti-southern legislation" can be punished.

Republicans hammered at President Truman on a wide front last night. Lincoln Day dinners furnished a forum for most of the GOP orators.

Senator Taft of Ohio carried his campaign for the GOP presidential nomination into the corn belt with a speech at Bloomington, Ill.

He repeated charges that the administration is trying to keep prices high so that the Republican congress may be blamed for it during the campaign.

President Truman's request for wage-price controls and rationing power, Taft said, was an attempt to get "a strangle hold over all industry, agriculture and commerce."

In Johnson City, Tenn., GOP National Chairman Carroll Reece told a home town audience the Communists are the real opponents of the Republicans in the 1948 elections.

FIRE WRECKS 4 OWOSSO STORES

Lansing And Corunna Departments Help Fight Big Blaze

Owosso, Mich., Feb. 11. (P)—An invalid man was carried to safety and several other persons escaped unassisted as fire destroyed four business buildings and apartments in Owosso's downtown business district early today.

Fire Chief Roy Coakes, who estimated the damage at \$200,000, said the blaze apparently started in the basement of the Gude drug store and spread to the three adjoining structures.

Firemen from Flint, Lansing and Corunna aided the local department in fighting the blaze, which was brought under control at 4 a. m., about four hours after it was discovered.

All four buildings were two-story structures with living quarters on the upper floor.

In addition to the drug store, destroyed were the Sugar Bowl confectionary, Sears Roebuck and Co. order office and a restaurant.

GANDHI'S ASHES TAKEN TO RIVER

Thousands Pack Railway Stations For Glimpse Of Funeral Train

By MAX DESFOR

Aboard Gandhi's Funeral Train, En Route To Allahabad, Feb. 11. (P)—Sorrowing crowds by the thousands packed railway stations today as Mohandas K. Gandhi's funeral train rolled toward Allahabad.

As the train of third class coaches stopped, jostling mobs pushed forward toward the funeral car where Gandhi's ashes repose in an urn. Garlands and money were tossed into the open window of the special compartment holding the urn.

Tomorrow at noon the ashes will be immersed at Triveni Sangham, near Allahabad, where the Ganges, Jumna and Saraswati—most sacred rivers to Hindus—meet.

As the train swung into the open countryside it picked up speed, passing little groups of Indians who had gathered by the tracks to see it pass.

During a stop at Aligarh in the United Provinces of India a delegation of Moslems presented a funeral wreath.

Slavina of 1900 Moslems Refuted

Karachi, Pakistan, Feb. 11. (P)—The Pakistan defense ministry denies that 1900 Moslems were killed by Indian troops in Kashmir and said Moslem guerrilla tactics would make such a total impossible.

The Indian defense ministry said in a communique issued Monday in New Delhi the Moslems had been killed by troops in a battle near Naoghera. The town is 70 miles southwest of Srinagar, Kashmir capital.

New \$20,000 Job Created To Boss Europe's Revival

BY OLIVER W. DeWOLF

Washington, Feb. 11. (P)—A European recovery boss who won't have to take orders from the state department appears a certainty today.

The Senate foreign relations committee agreed unanimously last night to create a \$20,000-a-year independent Marshall plan administrator.

He would rank equally with the secretary of state and other cabinet members and any dispute would be settled by the president.

The administrator would be advised by a 12-member board of private citizens and would report to a 14-member congressional "watch-dog" committee.

A roving ambassador and special missions abroad would keep tabs on how Europe uses the American help.

Chairman Vandenberg (R-Mich.) said the administrative plan was agreed to without dissent by the committee. He added that if the state department has any objections, he hadn't heard them.

Rep. Herter (R-Mass.), chairman of a special House committee on foreign aid, told a news conference that all assistance programs should be placed under a single administrator. The Senate bill deals only with European aid which 16 western European nations have asked for on a self-help basis.

Herter noted that the government has announced plans to help China and is considering additional military assistance for Greece and Turkey on top of the Marshall plan and its programs for occupied areas. He said "intelligent programming" requires that all the phases of foreign relief be taken into consideration.

The administration has given Congress an estimate of \$9,333,000,000 for all foreign aid for the 15-month period beginning April 1. Of this, \$6,800,000,000 is earmarked for the European recovery program.

MAYOR TAKES FUEL SHORTAGE CASE TO WHITE HOUSE

(By The Associated Press)

Detroit appealed directly to the White House today (Wednesday) for enough additional natural gas to send some 150,000 industrial workers back to their jobs.

Seeking a means of restoring service to scores of the city's industries, Mayor Eugene I. Van Antwerp telephoned President Truman to ask a Saturday appointment.

He planned to plead Detroit's case in Washington along with city council president George Edwards and council members Del. A. Smith and Charles F. Edgecomb.

Schools Closed

As the city officials resorted to final emergency measures to relieve the two-week industrial gas stoppage, the House Federal Power Committee continued its hearing on the Michigan fuel situation and the Michigan Public Service Commission hunted for extra supplies for four central Michigan villages which have run out of gas.

All schools have been closed in Stanton, Sheridan, Mc Bride and Crystal, and home service has been impaired because of heavy demands on the Richland Pipeline Company supply which resulted in a pressure drop.

The House committee, after taking under consideration a plea for more gas from Detroit corporation counsel Raymond J. Kelly, called officials of Panhandle Eastern Pipeline company to testify today.

Panhandle is the supplier of Michigan Consolidated Gas Company, which had to cut off industrial supplies when the cold weather cut its reserves.

Yesterday Kelly asked the com-

Hitchhiker Found Guilty Of Robbery-Slaying That Netted \$34

Port Huron, Mich., Feb. 11. (P)—Convicted in a hitchhike robbery slaying that netted him \$34, William H. Stewart of Sault Ste. Marie faced a mandatory life prison sentence today.

A circuit court jury of six women and six men deliberated only 26 minutes yesterday before finding the 46-year-old defendant guilty of first degree murder in the shooting of George Stanley Spaul, a retired Canadian wheat rancher.

Judge Shirley Stewart (no relation) deferred formal sentencing of the ex-convict pending a probation report. Stewart served several years in Marquette prison on the habitual criminal charge, but was released on a technicality in 1944.

His arrest in the slaying of 56-year-old Spaul came weeks after the rancher from Consul, Sask., was shot in the forehead and dumped into a ditch near here last Aug. 15.

Police who conducted a long investigation to learn the identity of the dead man finally located his 1929 model car in Detroit.

Traced through evidence furnished by the car, Stewart was arrested in northern Michigan several days later. He admitted hitchhiking a ride with Spaul, and police said he told them he shot the Canadian in the belief that he was carrying \$8,000.

Turkey Will Fight To Keep Freedom, U. S. Envoy Declares

Washington, Feb. 11. (P)—Turkey is "determined to fight anybody any time" to preserve its freedom, the chief of the United States military mission to that country said today.

Maj. Gen. Horace L. McBride emphasized in an interview that the Turks "are not grasping, they don't want anything outside their own borders." But, he added they firmly intend to resist any move against them.

Turkey controls one of the world's most strategic waterways, the Dardanelles. Across the Black Sea and on her northeastern border she faces Russia, which long has sought a voice in control of the Dardanelles.

High Court Hears Appeals In Graft Cases at Lansing

Lansing, Feb. 11. (P)—The State Supreme court will hold a special one-day session next Tuesday to hear appeals in four convictions arising out of the Ingham county grand jury which investigated graft in state government.

The appeals are those of former Senators Jerry T. Logie of Bay City, Charles C. Diggs of Detroit and William C. Birk of Baraga and former Rep. William Garof of Hillman.

Logie and Diggs were convicted of accepting bribes to defeat an amendment to the horse racing bill in 1941, and Birk and Green were convicted of accepting bribes to pass a 1941 bill legalizing the practice of naturopathy.

Housewife Suicide, Daughter Drowned And Son Strangled

Columbia, S. C., Feb. 11. (P)—A 35-year-old housewife slashed herself fatally with a razor-blade after drowning her six-month-old daughter and strangling her son, 4, with a diaper.

Mrs. James M. Badgett, her daughter, Estell, and son, Jimmy, were found in a blood-spattered bathroom of their home by another son, Roy, 7, and a neighbor.

Coroner W. A. Platt said there would be no inquest, adding, "The one who committed this crime is now dead." He said Mrs. Badgett had been "ill for some time" and was under the care of a doctor.

The husband and father, James M. Badgett, a Navy veteran and employee of a furniture store, was away from home at the time of the slayings.

ZERO BELT HITS DOWN IN TEXAS

Cold Weather And Snow Predicted Again For Midwest

Chicago, Feb. 11. (P)—A fresh cold wave spread over the central and southern plains and Rocky Mountain region and into the Texas Panhandle today. Sub-zero temperatures, general throughout the area, also continued in parts of the north central region, the New England states and upstate New York.

The mercury was on the way up over most of the middle Atlantic area and fair, cool weather was reported along the West Coast.

The sub-zero line extended as far south as Eastern Colorado and Northwestern Kansas where Goodland reported -4 today. The cold wave was accompanied by a light snow with heavy drifting and blowing snow in many sections.

The mercury was near Zero at Amarillo, Tex., while sub-zero readings included 24 at Bozeman, Mont., 23 at Bangor, Me., and 14 at Albany, N. Y.

Cold weather and snow was expected to extend into other parts of the midwest tonight and tomorrow.

Southern Florida remained the warmest section of the country. Highest readings yesterday included 73 in Miami, Fla.

Mid-Air Collision Kills P-51 Pilot

William Field, Ariz., Feb. 11. (P)—Lt. William H. Nelson, 30, of Flint, Mich., escaped injury yesterday when the trainer plane in which he was riding collided with a P-51 fighter craft.

The fighter pilot was killed. Nelson's plane, piloted by Lt. James M. Griffith, made a successful landing.

Conservation Law Revision to Come Before Legislature

Lansing, Feb. 11. (P)—The State Conservation Commission today asked Governor Sigler to submit a complete revision of conservation laws to the March 16 legislative session.

The commission was told by staff members that enforcement of game protection laws had been virtually scuttled by a recent attorney general's opinion holding searches and seizures by conservation officers unconstitutional.

The commission recommended that Michigan conservation laws be revised on the model of those in Pennsylvania and Missouri, the constitutionality of which have been upheld by the courts. The laws in those states provide that the taking of wildlife is not a basic right of the public but a privilege granted by the state under license.

Bingo Games Defy Police In Detroit

Detroit, Feb. 11. (P)—A petition for a temporary injunction against police interference with the Good Neighbor Society bingo games was studied today by Circuit Judge Thomas F. Maher.

Larry S. Davidow, attorney for the society, presented the petition late yesterday, several hours after he had declared the games would be continued in defiance of Police Commissioner Harry S. Toy's order to halt them.

A regular bingo program is scheduled tonight by the society.

Grand Jury Indicts CIO For Political Spending Violation

Washington, Feb. 11. (P)—Federal grand jury today indicted the CIO and its president, Philip Murray, on charges of violating the Taft-Hartley act's political expenditures ban.

The law forbids spending of union funds for political purposes. The indictment charges that Murray published an endorsement for a Maryland congressional candidate last July in the union-financed CIO news.

Royal Couple Now Danny Kaye Fans

London, Feb. 11. (P)—Princess Elizabeth and Prince Philip turned up last night among the fans of American comedian Danny Kaye, now the toast of the London stage.

They paid a surprise visit to his show at the Palladium and afterward shared a half hour with Kaye in his dressing room, chatting, laughing and sipping champagne.

With the royal couple were the Marquess of Milford Haven, who was Philip's best man at the wedding in November, and Sharman Douglas, debutante daughter of U. S. Ambassador and Mrs. Lewis Douglas.

JOSEPH ROUSE DIES SUDDENLY

**Funeral Of Veteran City
Employee Will Be Held
Friday**

Joseph P. Rouse, 52, widely known resident of Escanaba, and a veteran of over 30 years service in the utilities department of the City of Escanaba, died unexpectedly of a heart attack Tuesday afternoon at 3 o'clock at St. Francis hospital.

Mr. Rouse was taken ill in the early afternoon at his office and was rushed to the hospital, his death coming a few minutes after he had been admitted.

He was born in Nadeau, November 23, 1895, and has been employed by the City of Escanaba since May 1, 1917. He was utilities serviceman and electrical inspector at the time of his death.

An active member of St. Stephen's Episcopal parish, Mr. Rouse was a member of the vestry of the church. He also was Worship Master of Delta Lodge, No. 195, F. & A. M., and was a member of R. C. Hatheway Chapter, No. 49, Order of the Eastern Star.

He leaves his wife, the former Ruth Hayward, two daughters, Mrs. Evelyn Taylor and Joan Rouse, of Escanaba, one son, Ronald Rouse, who is in California; and the following brothers and sisters: Willard Rouse, Iron Mountain; Frank and Robert, Escanaba; Mrs. Sam (Phyllis) Piche, Nadeau; Mrs. Adeline Christian, West Windfield, N. Y.; Mrs. John (Phoebe) Londerville, Escanaba; and Mrs. Ethel Peterson, Milwaukee.

The body will be in state at the Allo funeral home at 3 p. m. Thursday. Funeral services will be held at 2 p. m. Friday, at St. Stephen's church, with Rev. James C. Ward officiating. The Masonic service also will be conducted at the church by the Blue Lodge with Arthur Nelson in charge. Burial will be in Gardens of Rest cemetery.

Guardsmen To Get Medals Must Show Discharge Papers

Members of Company C, 107th Engineer battalion, Upper Michigan National Guard, who served in World War II are reminded to attend drill at the armory tonight in full uniform to receive their Victory Medals.

A ceremony will be held tonight, at which time World War II Victory Medals will be presented to approximately 25 members of the unit. Drill will open at 7:30 and close at 9:30.

Members eligible to receive Victory Medals must show their original discharge certificates.

Men between 18 and 32 who were discharged from military service with the rank of technical sergeant, first sergeant or master sergeant are eligible to apply for National Guard commissions, it was pointed out.

Three platoon leaders with the rank of first lieutenant and one administrative officer with the rank of second lieutenant are needed in the Delta county unit. Men interested are asked to attend drill tonight.

Butterfly Caught But Spring Still Plenty Far Away

Leo Gravelle just thinks it's a sure sign of an early spring.

As evidenced by the sustained cold weather wave, the weatherman has different ideas.

But Leo puts a lot of faith in the fact that he caught a pretty, little yellow butterfly at the rear of the Bark River Co-Op store Tuesday afternoon.

And like the robin, groundhog and other harbingers of spring, Leo thinks his yellow butterfly is the tipoff.

The mercury tells a different story, however. It's still flirting with zero.

South Bark River Telephone Company Increases Charges

The South Bark River Telephone company, at a meeting held Tuesday in Sunnyside school, authorized a rate increase of 50 cents per month per member to meet high upkeep cost; instructed the presiding officer, Carl J. Ahlin, secretary-treasurer, to request Michigan Bell Telephone company to assume the telephone lines, and authorized construction of another line from Bark River Salem Lutheran church to a point one mile south.

Ahlin presided at the meeting, attended by one-third of the subscribers, in the absence of R. N. Dahlberg, president.

The motion to increase membership rates was presented by Clarence Anderson and seconded by Arthur Sundquist.

The company plans to have Michigan Bell Telephone company take over their line as soon as possible and has authorized company officials to prepare a petition to be presented to the Public Service commission, requesting the transfer.

Extension of the line from the Salem Lutheran church is necessitated by the need for having not more than eight persons on a party line. To meet expenses of this operation each subscriber has been ordered to contribute one day of work or \$5.

The Changing U. P.

JOHN BARTLOW MARTIN whose book, "Call It North Country," described the Upper Peninsula of Michigan as the last midwest wilderness, a place where nature is unspoiled by commercialism, recently wrote a sequel in Harper's, which he called "The Changing Upper Peninsula."

In his magazine article, Martin decried the onward spread of "civilization" to Upper Michigan, particularly lamenting the tremendous increase in tourist business to the area. The author apparently is apprehensive lest the "last midwest wilderness" becomes merely another mecca for curious travelers.

Frankly Mr. Martin's worries about the Upper Peninsula leave us cold. The Upper Peninsula's greatest blessings, aside from its mineral deposits which apparently are petering out, are its inviting summer climate, its scenic loveliness and, of course, the hospitality of its people. It is inevitable that such blessings would attract visitors from other areas and equally inevitable that our people would welcome these visitors to share with us our scenic beauties and summer atmosphere. Call it commercialism, if you like, but if that's wrong then our entire system of free enterprise, the foundation of America, is wrong.

Come to think of it, the Upper Peninsula owes a debt of gratitude to that Mr. Martin because the very expansion of tourist traffic to the Upper Peninsula that he laments is to some degree the result of Mr. Martin's articles. He has helped to establish the demand, so to speak.

Mr. Martin need have no fears that the unspoiled loveliness of the Upper Peninsula will be desecrated. We are merely providing accommodations for the increasing number of persons from other areas who desire to visit our region.

Russia Blames U. S.

IT WAS INEVITABLE that the Russian propaganda bureau would cook up some sensational charges against the United States and the western democracies of Europe to offset the publication by the American state department of captured German documents which provided details of the Russian-German pact before Hitler invaded the Soviet Union.

Publication of these documents showed conclusively that Russia provided the guarantees that Hitler needed to launch the war in Europe and to send his armies into Poland. They showed further that Russia was bitterly opposed to America and the western democracies of Europe even at that time.

Now to blunt the international effect of these disclosures, Russia has charged that it was not the Soviet Union at all that gave Hitler the go-ahead sign for aggression, but rather the United States, Britain and France. The Soviet propaganda bureau seeks to saddle the United States with responsibility for the rise of Hitler to military power in Germany.

The Soviets also charged that France and Britain, in effect, encouraged Hitler's aggression by a policy of appeasement and by a refusal to take a firm stand against German expansion.

We know now, of course, that the appeasement policy sadly adopted at Munich was a ghastly mistake. The French and British governments responsible for that policy, unprepared as they were for war at that time, undoubtedly did encourage Hitler to rattle the sabres, as the Soviets charge.

Neither the French nor the British, however, provided the weapons for Hitler's aggressions but Russia did. The Russian-German pact, details of which are now public knowledge, provided that Russia would supply tons and tons of material to Hitler. Such materials were provided to Germany under the agreement in tremendous quantities until the Nazis invaded Russia.

For United Brothers

"WHAT A SHAME," people always say about the Civil War. "Brother was killing brother."

Abraham Lincoln felt that way, too. Perhaps that was one reason he fought so bravely to end the struggle. Perhaps that was why he spoke so eloquently for a united nation. Perhaps that was why he gave his life to keep America undivided.

But was the "hot war" of 1865 any more a case of brother against brother than the "cold war" of 1948? There were people of all nationalities in the Blue and the Gray. They spoke the same language, true, but there were still immigrants from every European nation fighting with Grant and Lee and Sherman and Jackson. Essentially, it's just as much brother against brother today.

As we honor Lincoln's memory, perhaps

we ought to compare the problems he faced with those we face today. Lincoln overcame jealousy, suspicion, hate and greed to emerge from the struggle with the beginnings of a truly unified United States. It took a good many years to erase completely the memories of the war, and to conquer those emotions, but it has been done.

The "cold war" of today is inspired by the same emotions—jealousy, suspicion, hate, greed. Are they any more insurmountable today than they were in 1865? Probably not—human nature changes very little over the years. What our great-grandfathers did, we can do.

But the catch to that, of course, is—is there an Abraham Lincoln in the world? It matters little whether our modern Abraham Lincoln emerges as an American, Briton, Russian, German, Frenchman or Solomon Islander. For that matter, our modern Abraham Lincoln need not even be a human being.

It would serve the same purpose if the United Nations suddenly acquire sufficient strength of purpose, courage, will to succeed—guts, if you will—to act the part.

But our world today desperately needs someone, or something, to hold it together. It needs an Abraham Lincoln, willing to devote its entire efforts to the purpose of unity. It needs someone who can show us the folly of our petty squabbles, who can overcome those base emotions which threaten to destroy what little security we have left.

If there is still logic and common sense and decency left in man, there is still hope. We think that Lincoln, himself, would be the first to say that man is basically decent, logical and sensible. All that he needs is a little inspiration from someone such as Abraham Lincoln.

Is there an Abraham Lincoln in the world?

UN's Responsibility

THE UNITED NATIONS commission on Palestine is supposed to establish provisional councils of government and security forces for the Arab and Jewish states in Palestine before April 1, but the commission has informed the UN security council that it is helpless to act without an international military force to preserve peace.

The general assembly of the UN recommended that a major Palestine port be opened for Jewish immigration. The British have balked at that with a refusal to comply. The Palestine commission proposed to help the Jewish Agency to form a Jewish-controlled militia in Palestine. The British talked that, too.

The Palestine situation is by far the most serious test of the United Nations' authority because the partition decision was made by the organization. It is now the UN's responsibility to see that the order is carried out. The only possible way it can be done is to establish an international military force.

In the meantime the Arabs are gathering an imposing army ready to forestall any action by the Jews to establish their own state in the Holy Land.

The United Nations had better act—and soon.

WHAT'S IN A NAME?

Let us talk today about the pronunciation of some familiar names.

The name Marguerite is the French form of Margaret, which is from the Latin word margarita, "a pearl," from the Greek margaros, "the pearl oyster." It is not uncommon to hear Marguerite pronounced "MAHRK-yoo-REET." But there is no "yoo" sound in the second syllable. You see, the French spelling "gue" indicates that the "g" is hard, as in such words as rogue, vague, baquette. Therefore, the "u" is silent. Marguerite is correctly pronounced: MAHRK-zuh-REET.

Some people and many dictionaries and gazetteers think that Alabama is pronounced "AL-uh-BAH'muh," a pronunciation that Alabama people never use. Alabama is a tribal name. It is from the Choctaw alba mule, meaning, "I open or clear the thicket." The correct pronunciation of Alabama is: AL-uh-LASS-uh.

The same erroneous "ah" sound is frequently heard in Miami and Alaska, as "mee-AH-mee" and "uh-LAHSS-kuh." But there is no sanction for the pronunciations. The first syllable of Miami is like the word "my." The second rhymes with "dam, ham," thus: my-AM-ee. The second "a" of Alaska is flat as in "aster." Do not give it the broad or half-broad sound. Say: uH-LASS-kuh.

The feminine name Lois is sometimes pronounced to rhyme with Joyce; but it should not be so pronounced. Lois is a Biblical name from the Greek, and it means "desirable." Lois was the grandmother of Timothy who was a convert of St. Paul (2 Tim. 1, 5). Lois has two syllables; the first

World Events Analyzed

Washington. — Senator Arthur H. Vandenberg sits in the ornate red and gold vice presidential room just off the Senate floor and ponders his own future of the world. Both he finds filled with uncertainties, with high promise and at the same time with potential perils.

Looking out at the snow-covered lawn of the capitol, he recalls the first sentence of his statement in Life magazine of nearly a year ago, when

he said he was not a candidate for the Republican presidential nomination. It is harder not to run for president, the senator said then, then it is to run for that high office.

Everything that has happened since seems to prove the truth of this paradox. It was General Eisenhower's experience. If the general had been content simply to drift, saying nothing, the Eisenhower boom would certainly have continued to expand. Now that Eisenhower is out, the focus is again on Vandenberg in spite of his real reluctance and the deep doubts that trouble him. The draft - Vandenberg stimulus comes, as it did in the instance of Eisenhower, from those who feel that the times demand a man above and beyond the ordinary political mold.

FAVORS ONE TERM

In a deadlocked convention Vandenberg could be drafted. But he could be expected to lay down two conditions before he accepted such a draft. The Vandenberg terms would be:

1. That he would be a one-term president if he were elected.
2. That he make no barn-storming coast to coast campaign tour.

The senator believes a one-term declaration would put a candidate in a very strong position. He said as much four years ago when he came out for General MacArthur as the 1944 Republican standard bearer.

In the senator's view, a one-term president would be freed from politics in making his major decisions. He would not be constantly pressed by friends and cohorts reminding him of the effect that his actions were having on his chances for reelection. Furthermore, his appeal to the country would be stronger since it would be evident that continuing in power was not his chief objective.

There is also the practical fact of the senator's age. On his birthday on the 22nd of next month, Vandenberg will be 64 years old. He is less than two months older than President Truman, who will be 64 on May 8.

CAN CARRY HEAVY LOAD

Rumors about the state of Vandenberg's health are a part of the current of political speculation. To friends who inquire on this score, he replies that he had a thorough physical examination at a clinic in his home town of Grand Rapids, Mich., last fall. The doctors at that time pronounced him organically sound. He has had a mild heart condition which has been brought under control by digitalis administered over a considerable period of time.

During the past two years, the senator has proved that he can carry a heavy burden of work. As chairman of the Senate foreign relations committee he conducted the five weeks of hearings on the Marshall Plan with patience and courtesy. If the rumored compromise comes off and the plan is speedily approved, no small share of the credit will go to Vandenberg.

Proud of his role in the Senate, the senior senator from Michigan is acutely aware of the thorny path ahead of any president in the coming four years. World War II has left in its wake problems at home and abroad of such magnitude as to make even the most ambitious man hesitate. Increasingly the presidency has become an "impossible" office, with the public and ceremonial side piled on top of a responsibility grown more crushing with each succeeding year.

Yet a full-fledged campaign to nominate Senator Vandenberg has begun in his own state. It was launched by Governor Kim Sigler and Vandenberg's Michigan colleague, Senator Homer Ferguson. That gives it an official status. At a rally in Detroit, Republican leaders expressed confidence their favorite son would accept a draft if it came about.

Senator Vandenberg is still in the position of not running for president. He talks of the possibility of some sort of pre-convention agreement between Senator Taft and Governor Dewey which would prevent a deadlock, lifting the threat of the kind of long-drawn-out hair-pulling that ruined the Democrats at their convention in Madison Square Garden in 1922. But the senator is a politician and not a general. He can hardly rule out a draft as General Eisenhower did, even if he wanted to.

rhymes with "hoe, toe," thus: LOE-iss. The city of Joliet, Illinois, is one of the most widely mispronounced American place names. Do not call it "jolly ETT." Accent the first syllable which is exactly like the name Joe. Be sure to say: JOE-lee-et.

Helena, in Montana and Arkansas, is not "hh-LEE-nuh." Accent the first syllable, thus: HEL-en-uh.

"There, That'll Learn 'im"

Good Evening

By Clint Dunathan

THE CASE FOR—Some time ago we presented a column based on information obtained from the Rev. James Bell, pastor of the First Presbyterian church, who

Dunathan

spoke to the Rotary club on the subject "A Case Against Universal Military Training." Today we present the other side: "The Case For Universal Military Training."

The information is from John Anthony of Escanaba, who last Monday spoke to the Escanaba Rotary club. John Anthony is an Escanaba business man, and a veteran of World War II.

Unlike Rev. Bell, who said that he did not believe he would convince anyone that UMT would be harmful unless they already thought so, Anthony hammered hard at convincing his audience that UMT will not only save the nation, but the world. Somewhere between the two arguments there may be a common meeting ground, but we doubt it. The case against UMT is approached from the idealistic viewpoint, while those for UMT are up to their ears in the practical present—with a few pessimistic assumptions about the future.

GOAL IS PEACE—Said Anthony: The goal today is permanent peace on earth. We must search for constructive measures to make that peace possible.

Why was there a World War II? After the first World War the United States "put its trust" in the League of Nations, but the League failed to keep the peace. That failure teaches us how to make the United Nations succeed. The League of Nations failed to stop aggression because it lacked the power to enforce its mandates. Appeasement replaced enforcement. The militarists of Germany, Italy and Japan took the high road to war and the U. S. was not sufficiently prepared to discourage them, let alone halt them.

READY IN 1955—The United States today must make itself sufficiently strong to defend itself and to lead war-stopping power to the United Nations, says Anthony.

The communists, he declared, are using the U. N. only to cripple it and advance their own interests. In Russia every man is receiving from two to five years compulsory military service. While they arm and prepare for war they attempt to lull us into disarmament. They believe that by 1955 they will be ready to wage war successfully against us, said Anthony. We have failed in our attempts to deal with the Communists, and they recognize our concessions only as weakness, he continued.

STUDY AND REPORT—Our time is running out and 1948 is the year of decision, Anthony believes. Our decision is shown in the Marshall plan for the economic rehabilitation of Europe; in the decision to arm ourselves for our defense and to strengthen the United Nations, so that Communists will be convinced of the folly of war.

Four members of Truman's nine-man (one was a woman) national security study committee opposed universal military training before its study began, Anthony said. After the study was completed, its report recommended UMT as one point in an eight-point program for defense and peace.

Into the Past

Ten Years Ago

Nahma-Shirley DeRosa has been pledged to Pi Kappa Rho, one of the outstanding women's organizations on Western State Teachers college campus.

Escanaba—Dr. Fred Hirn was elected president of St. Joseph Altar society at a meeting held last night.

Manistique—Miss Grace Lewis, of Milwaukee, a graduate of Milwaukee State Teachers college, has accepted a position in the Manistique schools to fill the vacancy created by the resignation of Miss Ruth Rytönen.

Gladstone—Mrs. J. P. Carlson is spending a 10-day vacation in Jackson, Mich., visiting with her daughter, Mrs. Carl Castle.

Escanaba—Miss Violet Goldberg has left for Lansing to make an extended visit with her sister, Mrs. Paul Barber.

Twenty Years Ago

Escanaba—Attorney George Gallup, former mayor of Escanaba and for years one of the city's leading lawyers, died at his home in Brookline, Mass., today.

Manistique—Supervisor Charles Howard, who submitted to an appendectomy, has been dismissed from the hospital and is recuperating at his home in Hiawatha township.

Gladstone—Mrs. James Kalow has arrived from Minneapolis to visit with her daughter, Mrs. Fred Mingay.

Escanaba—Mr. and Mrs. Bert Hughtitt have left for an extended vacation in Brandenton, Fla.

Escanaba—Fred H. Stephenson and Joseph J. Embs yesterday observed the 35th anniversary of their entrance into the postal service.

Is there anything that isn't in short supply except toy balloons and table radios?—Rep. J. P. Wolcott (R) of Michigan.

Life is easier to take than you'd think. All that is necessary is to accept the impossible, do without the indispensable and bear the intolerable.—Kathleen Norris, novelist.

GROWING WEAKER—Our military defense is weak and growing weaker, said Anthony. Of 55 nations, only 7 are without some form of compulsory military training. The U. S. is the only major nation without it. Our army is losing men at the rate of 6,000 a month and is below strength. Our navy is "somewhat better off."

UMT IN BRIEF—UMT would be run by a three-man commission, one military, two civil members. As proposed it would require one year of training, six months basic and six months "selective"; and 900,000 men would be trained, starting when they attained the age of 18. Training would include experience that would be mentally, morally and physically beneficial to the young men.

QUESTIONS—UMT is the key to security for the U. S. and peace for the world, Anthony said. The United States must take its place as a major power in the world. In a brief question period, there was this query: "Can you have peace with a gun?"

Replied Anthony: Yes, you can. You have it in your town, your state and your nation. The men with the guns are the police officers who enforce law and protect citizens from criminals. The United States must defend itself from world criminals and, until the United Nations police force is effective, assume the responsibility to maintain law and order in the world.

Roving Reporter

By Hal Boyle

New York, (P)—Five years ago this week "the Desert Rat" paid a Valentine visit to the American forces in North Africa.

In the next few days this tempestuous Teuton—Field Marshal Erwin Rommel—sent the overwhelmed Yanks spinning back forty miles.

That was the only time I ever led troops. I ran back 41½ miles. After a week of wild rampaging, Rommel trundled his panzers back into the Tunisian coastal hills, leaving behind the hulks of 36 American tanks and thirty overrun field guns.

Since then it has been the fashion to treat the battle of Kasserine Gap as a great defeat caused by the greenness of American troops.

Top Brass At Fault

This ready explanation puts a needless and untrue slur on the men who fought there, men who really had done considerable fighting already. And it hides the fact that much of the blame belongs on the top brass.

Many of the men went to their deaths believing they were fighting the battle the wrong way. I know this because one evening they told me so, and the next evening they were dead.

There will always be some controversy over the battle of Kasserine. Many American officers who fought there believe the record would have been considerably better if their units hadn't been fed to Rommel a battalion at a time.

There was no American "army" in Tunisia—only the second corps made up of the first infantry and first armored divisions with supporting units.

They were strung out along a 150-mile north-south front on the right flank of the British first army, with British Maj. Gen. Kenneth A. N. Anderson in overall command. The sea to the east and this joint British-American force on the west made a corridor through which Field Marshal Montgomery's Eighth Army was driving Rommel's Afrika Korps toward Tunis after a 1,500-mile pursuit.

It was foreseen that Rommel would try to break out of the corridor to grab the supplies of gasoline he needed desperately. He could strike at the British through the mountain pass at Pichon or through Faid Pass near the center of the thin American line.

Anderson thought Rommel would choose Pichon. But "the Desert Rat" came through Faid Pass—with three full veteran Panzer Divisions.

Fredendall's Request Spurned—Maj. Gen. Lloyd R. Fredendall, second corps commander, frantically demanded that he be permitted to regroup the first armored and first infantry and fight them as full divisions to meet this threat.

Anderson refused, believing that the Faid attack was only a diversion and that the main German blow would still come at him through Pichon. So the first day one battalion from the first armored was sent against the Germans. Outgunned, outnumbered—but not outfought—it was destroyed. The next day a second American tank battalion was ordered out and met the same piecemeal fate.

This left Fredendall only one heavy tank battalion. It was under Brig. Gen. Paul McDonald Robnett—slim, small cantankerous commander of Combat Command "B."

A brilliant tactician, Robnett and his men stubbornly held off a German force at least five times their size until the infantry could withdraw. Then they pulled out in perfect order.

The Washington Merry-Go-Round

BY DREW PEARSON

Washington.—Harry Truman has the patience of Job when it comes to his likable, grandstanding, trouble-causing military aide, Harry Vaughan. But he nearly lost his patience—for keeps—when Vaughan tried to promote himself to be top White House aide last week. In fact, Vaughan came very near promoting himself right out of a job.

Here's the inside story of what happened:

Vaughan handed the president a slip of paper, purportedly announcing the appointment of Col. Robert B. Landry as the new White House aide for the Air Forces. On the slip of paper, Vaughan had also listed himself as "chief armed forces aide and coordinator of veterans' affairs." The other Army, Navy and Air Force aides were listed as his assistants. This was a new departure in White House history, since hitherto all White House aides have been of equal rank. There has been no top boss.

The president glanced at Vaughan's handiwork, but did not read it—the same mistake he made when Henry Wallace sent him his speech on Russia. Innocently, Truman thought it was an announcement of Colonel Landry's appointment as Air Force aide, and gave the Vaughan list to Charlie Ross, White House publicity chief, with instructions to release it to the press.

Ross read the list later in his own office and hit the ceiling. Taking Vaughan's slip of paper, Ross rushed back to the president's office and asked if Truman had read Vaughan's memo thoroughly. The president looked at it. Then he also hit the ceiling.

Meantime, Vaughan, irked at Ross for withholding the news from the press, held his own press conference, and announced himself as boss of all White House aides.

For the next three hours the White House was in an uproar. No one inside the White House is supposed to make a statement to the press except Press Secretary Ross, and debate raged on the expediency of repudiating Vaughan's unauthorized statement to the press. Truman was furious at his military aide, but hesitated to slap him down publicly.

Finally, it was decided to announce that Vaughan's self-promotion announcement was a "misapprehension." Privately, however, Truman used much stronger language in dressing-down Vaughan for the trouble he had caused. After it was over, the precocious ex-manufacturers' representative from St. Louis seemed quite content to keep his old job in the ranks of the four armed forces aides to President Truman.

PROBE OR POLITICS

Sen. Homer Ferguson of Michigan is trying to keep the lid on a hot feud that is raging inside his appropriations subcommittee, now supposed to be investigating Sen. Elmer Thomas of Oklahoma and other grain speculators.

At a closed-door meeting last week, Sen. Theodore Green of Rhode Island, Democrat, charged that Ferguson and other Republican members were deliberately prolonging the probe so that hearings on the speculations of Thomas, Ed Pauley and White House Physician Wallace Graham can be held during the coming presidential campaign.

"At the rate we're going, this investigation will last until next November," Green asserted angrily. "I'm not in favor of the investigation being used as a political football."

Republican Sen. William Knowland of California, presiding in Chairman Ferguson's absence, denied that the G. O. P. was trying to get any political advantage out of the speculator probe. It would be foolish to start the hearings until the committee has made a full investigation of the market trading of Senator Thomas and others. Knowland argued.

"Well, how long is that going to take?" demanded Green. "How soon can we get started on the hearings and in what order do we plan to put on witnesses? It's high time we reached a decision about these things."

Senator Knowland replied that he could not answer Green's questions, because no one knew as yet how long the preliminary investigation would take. However, Green refused to accept this explanation. He was so furious that he refused to vote on a motion authorizing the investigating committee to spend an initial \$20,000 for the employment of five sleuths and a stenographer.

Note—This column has already supplied Senator Ferguson a raft of material on Senator Thomas's speculation, and will be glad to supply a lot more if the committee is really interested.

THE ARCTIC LOBBY

Alaska has its lobbyists, too. At present, it has organized a lobby—just as intense as Pan American Airways—to block the reappointment of able, fearless Ernest Gruening as governor of Alaska.

Alaskan canning and shipping lobbyists all have been beating at the back door of the White House in opposition to Gruening. They don't like his drive for lower maritime rates, and for higher taxes on fishing, canning and shipping.

Skillful backstage operator for the lobby is Seattle's Gil Skinner of the Alaskan Steamship Co.

However, Alaskan "big business" is going to be disappointed. When his term expires March 29, Governor Gruening is going to be reappointed.

Lots of folks have finally caught up with their work—and need another vacation.

When a wrestler loses, everything falls on his shoulders.

THE SNOWSHOE TRAIL GOES MODERN
—This outfit, the diesel-powered Sno Cat, with skis in front and caterpillar treads behind, is receiving its first tryout in Michigan this winter. It is designed to take conservation officers into those deeply remote places, especially deer

yards, where only hours of snowshoeing or skiing would do the trick before. Howard Eldred, Escanaba district game manager for the conservation department, demonstrates the machine for I. H. Bartlett (standing), the department's deer specialist. Sno Cats are now located at Escanaba and Crystal Falls.

CHILDREN DO WELL ON OLEO

Results Of Experiment In Chicago Are Announced

Chicago, (SS).—Children grow as well on margarine as on butter, Mrs. Harry Leichter, George Eisenberg and Anton J. Carlson of this city report in the forthcoming issue of the Journal of the American Medical Association.

The report, from the University of Illinois College of Medicine department of pediatrics, is of a study aided by a grant from the National Association of Margarine Manufacturers. Terms of the grant provided that findings of the study could be published regardless of results.

Unlike most studies of the relative merits of butter and margarine, human children instead of laboratory rats were the subjects.

The children ranged in age from three to 17 years and were orphans or half-orphans living in two different institutions. Those in one institution got only margarine, from vegetable fats and fortified with vitamin A, to spread on bread, and as the fat used on vegetables, in pastry and for frying. Butter was the only fat used for these purposes in the other institution.

The study went on for two years, during which time more than 200 records were accumulated. These included reports on children's health, monthly height and weight records, and red blood cell counts and hemoglobin determinations made at the beginning of the study and again one year later. Because some children stayed in the institutions a short time, all records for those studied less than six months were discarded. This left 160 records in the margarine group and 107 in the butter group.

At the end of two years, the average yearly gain in weight for boys getting margarine was 6.7 pounds, while that for boys getting butter was 8.1 pounds. The difference is not statistically significant, the scientists point out. Girls on margarine had a yearly average gain of 8.2 pounds, those on butter 6.3 pounds.

Yearly average gain in height for boys on margarine was 2.2 inches, for those on butter it was 1.6 inches. The figures for girls were 2.2 on margarine, 0.9 on butter.

Inland Typography Second Award Goes To Iron Mountain

Chicago, (AP).—The Inland Daily Press Association Monday announced winners of the ninth annual typography contest at the association's mid-winter meeting.

The awards, presented by Professor Albert A. Button, of the Medill School of Journalism at Northwestern university and director of the contest, went to the following newspapers:

Class A (up to 5,000 circulation)—The Columbia (Mo.) Missourian, first; The Mexico (Mo.) Evening Ledger, second; The Monroe (Wis.) Evening Times, third. The International Falls (Minn.) Daily Journal and The

Albion (Mich.) Evening Recorder were given honorable mention. Class B (5,000 to 10,000 circulation)—The Watertown (S. D.) Public Opinion, first; The Winfield (Kans.) Courier, second; The Hibbing (Minn.) Daily Tribune, third. Honorable mention, the Peru (Ind.) Daily Tribune and the Greeley (Colo.) Daily Tribune.

Class C (10,000 to 25,000)—The Rochester (Minn.) Post-Bulletin, first; The Iron Mountain (Mich.) News, second; The Champaign-Urbana (Ill.) Courier, third. Honorable mention—the Freeport (Ill.) Journal Standard and the Alton (Ill.) Evening Telegraph.

Class D (25,000 to 75,000 circulation)—The Appleton (Wis.) Post-Crescent, first; the Pontiac (Mich.) Daily Press, second; the Bloomington (Ill.) Daily Pantagraph, third. Honorable mention, the LaCrosse (Wis.) Tribune and the Decatur (Ill.) Daily Review.

Class E (over 75,000 circulation)

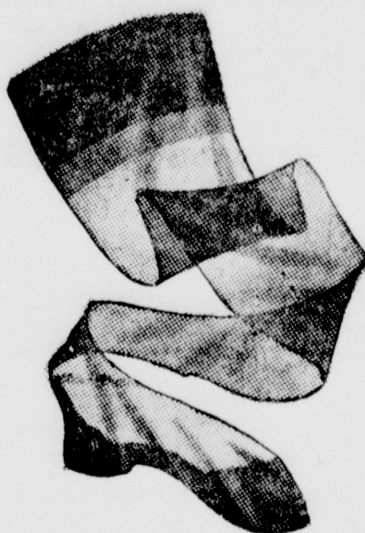

—the Chicago (Ill.) Daily News, first; the Duluth (Minn.) News-Tribune, second; the St. Louis (Mo.) Globe-Democrat, third. Honorable mention, the Duluth (Minn.) Herald and the St. Paul (Minn.) Dispatch.

The Chicago Daily News, which is now printed by a photo-engraving process, was judged on an edition printed with set type. Sutton said editions of all papers judged were those of last October. The Daily News and other Chicago dailies have been using the photo-engraving process since Nov. 24 when the Chicago Typographical Union went on strike.

FINDS UNPUBLISHED LINCOLN PORTRAIT—A hitherto unpublished photograph of Abraham Lincoln, made 90 years ago, has been discovered by Stefan Loran, Hungarian-born Lincoln authority and author of "Lincoln: His Life in Photographs." The picture, an original ambrotype portrait, hangs on the wall of Loran's Lenox, Mass., home. It was made on May 7, 1858, after Lawyer Lincoln successfully defended Duff Armstrong on a murder charge. After the acquittal, a young photographer invited Lincoln into his studio where the future President posed for his only portrait wearing a white linen duster.

FORD FOREMEN GET NEW SETUP

Salaries Determined By By Skill, Classed In Six Groups

Detroit, Mich., (AP)—A new plan covering responsibility and compensation of foremen in its employment was announced Friday by the Ford Motor Co.

In a letter to its management personnel Henry Ford II, president, said foremen, established as individuals engaged exclusively in management functions, will be paid salaries determined by the skill of the operations they supervise.

Many of the provisions of the new plan, he declared, were not possible under the contract, permitted to lapse last summer, with the unaffiliated Foreman's Association of America.

Ford said foremen will be classified into six occupational groups. Periodic community salary surveys will be made, he added, to insure that foremen are paid salaries equal to, or better than the going rate in the area of their employment.

Each classification will have minimum and maximum salaries and opportunity will be provided for promotion from one classification to another.

"All foremen," Ford said, "will be eligible for salary increases, based on merit within their respective salary ranges. Increases will be based on application, interest, efficiency and experience."

Each foreman, Ford said, will develop and administer the working force under his jurisdiction, will "maintain or improve established production schedules," and "be responsible for the quality of all materials produced in his department."

He will also be responsible,

Carol Green and Grace Wood of Manistique spent Saturday evening at the William Bonifas home.

Arvid Sundlin, Pete Forsland, and Donald Green, who are employed by the Straits Construction Co., were transferred from Marquette to St. Ignace Monday for an indefinite stay.

Q. What was the significance of the custom of "breaking money?"

A. Among lovers, the breaking of money or parting, with each keeping a part, signified fidelity. The practice came from ancient times before inns and hotels were known. Travelers then had to trust to the hospitality of strangers living along the road. At parting, it was customary for the guest and the host to divide some

particle, as a white stone or a coin, each retaining a part. If the host ever required similar hospitality of the guest, he need only show him the token in his possession.

Q. Since I am not married and my mother is dependent on me, can I get increased subsistence under the GI Bill to support my mother while I am going to school?

A. The regional office of the Veterans Administration is the only agency which can determine whether your mother, for the purpose of increased subsistence, may be classified as a dependent. You will have to submit affidavits attesting your mother's dependency on you.

Q. Who hold the American professional tennis championships?

A. Bobby Riggs, of Ferndale, N. Y., holds the National Singles championship, and Bobby Riggs and Don Budge of Oakland, Calif., hold the National Doubles championship.

Don't Rub Snow On Frostbite, Health Commissioner Says

"Don't rub snow on your frostbite," Dr. J. K. Atland, Commissioner of Health, warned Michigan's ice fishermen and outdoor sports enthusiasts today.

Both the snow and rubbing are harmful. The best treatment is to cover the frozen part with the hand, woolen sock, mitten or scarf, until circulation is restored. It is important that the frostbitten part return to normal temperature gradually. Do not expose the frostbitten parts to a hot stove, radiator or fire or hot water until circulation has been restored by gradual raising of the temperature through use of body heat, cool air, or cool water. If circulation cannot be readily restored, a physician should be consulted at once.

Loss of feeling and a grayish white appearance are signs of frostbite of the ears, nose or cheeks. There is usually considerable pain when either the hands or feet are frostbitten.

Frostbite becomes common when the temperature drops below ten degrees. It occurs most often when low temperature is combined with water, or with high wind which rapidly removes heat from unprotected parts of the body. It can have serious complications.

FREAK SNOWSTORMS

Showers of snow may be made to fall from the ceiling, if a window suddenly is thrown open, allowing freezing cold air to rush into a small room containing warm, moist air.

Plants frequently fail because they are drowned with too much water or allowed to dry out in a warm dry atmosphere indoors.

Camps on Sunday

Jack and Robert Hruska, George LeBrasseur and Robert Thibault returned to Kalamazoo where they will resume their studies at Western State Teacher's College.

Walter Walman, who has been employed at the Nahma boarding house has returned to his home in Hancock.

COUNTRY MEDIC WAS CHARACTER

Didn't Send Out Bills,
Always Wore Hat
At Operations

BY ROBERT C. RUARK

Chapel Hill, N. C.—Old Dr. Brack Lloyd died last year, which might be the reason the University of North Carolina is putting in a four year med school and its own 400-bed hospital. They got to do something to take up the slack Brack left behind him.

Brack was one of the last country doctors. He was a character. He wore a pinched-up black hat, slept in his clothes and had dirty fingernails. If he had an office, it was on the sidewalk of Franklin St. or in Eubanks drug store. But he was a mighty good doctor. The big boys called him in on the tough cases. He was using sulfa drugs on pneumonia before its use was sanctioned by the State Medical Assn. His obstetrical record was probably the best in the state.

Never Sent Bills
Dr. Lloyd was picturesquely profane, irreverent and he never sent out a bill in his life. He would just as leave take a cup of whiskey as a check for delivering a baby, and often did. He always wore his black hat when he was operating. Said he couldn't see to cut without it. He loved animals, and his hogs were always fatter than anybody else's.

When one of the university's most revered, venerable sages died, to the accompaniment of much written and spoken elegy, Brack spat and said:

"He's a-sittin' in a front pew in hell right now. Any man who'll let his livestock perish to death out of pure stinginess is duty bound to go to hell." The departed professor had been notorious for his bony horses and emaciated dogs.

A friend of mine once had a huge ulcer on the back of his neck. Brack looked at it and said: "That thing needs cuttin'. Wait'll I get my hat."

SHE'D LIKE YOU TO WRITE—In 1946, stirred by her courageous fight against rheumatic fever, 64,000 people sent valentines to Evelyn Valentine, who has been an invalid for nine years. Four months ago infantile paralysis crippled her legs, but she has regained the use of them. "Miss Valentine" is shown signing some of the hundreds of valentines she'll send this year. Because of her travels, many of her friends have lost track of her, and she wants them to know that she lives at 1450 West Jackson Boulevard, Chicago.

He went outside to his car, and came back with a mustard jar full of surgical instruments in his hand, his old black hat on his head. He straddled the patient, wiped a scalpel on his sleeve, and commenced to cut. The patient's wife was horrified.

"Don't worry," Brack said, hacking away. "I was born sterilized. I eat germs." The patient got well in a hurry.

Love to Play Poker
Dr. Lloyd loved to play poker, and he always carried a straight flush of cards in his pocket. It was signed by the cronies who were present when he bit the flush, and was greasy and tattered from handling. But his fondness for poker deprived him of sleep.

On a maternity case one time, he decided it would be at least an hour before baby came, and he was yawning. It was pretty late at night.

"You got another bed in this house, sister?" He asked the expectant mother. He called all women, from professor's ladies to servants "sister." "No, doctor Brack," she said. "This is the only one."

"Then move over a mite, sister," said Dr. Lloyd. "I aim to ketch me a little snooze."

Although Dr. Lloyd had topped off his medical instruction at a famous eastern university—and had, I believe, headed a big hospital up north before he came home—he was not an admirer of

Births

Trenary, Mich.—Mr. and Mrs. Francis Finlan are the parents of a daughter, Ann Marie, born Thursday, Feb. 5 at the Brasier hospital at Munising. This is the fifth child and second daughter in the family.

Personals

Mrs. William Quarfoot has been ill the past week with sinus trouble.

Mrs. John Knaus Jr. was confined to her home several days last week with the "flu".

Mr. and Mrs. Charles Jussila were callers in Marquette last week.

Joe LeDuc and John Suome, who are employed on the Nahma Line, spent the weekend here with their families.

Mrs. Norman Methot of Munising visited at the home of her parents, Mr. and Mrs. William Fitzgerald here, one day last week.

William Luukkainen, Elmer Hytinen and William Orava motored to Marquette last Sunday to visit

finehaired education especially when it concerned women. He once remarked to a lady who was acquiring knowledge somewhat late in life: "Cut it out, sister. It'll make you no money and get you no friends."

Then say an early, unfortunate love affair turned Brack sour, made him into a character, and perhaps accounted for his disinterest in formal religion.

It is interesting that there were three preachers of different faiths at his funeral. They tumbled over themselves to excuse him for his lack of surface godliness, and at least one dominie turned and upbraided the congregation. He said maybe Brack would have joined the church if the people in the church had been better people.

ROYCE INVITED TO BUREAU MEET

Industrial And Traffic Problems Will Be Discussed

Marquette—Three subjects of major importance to the Upper Peninsula—industrial development, improvement of transportation, and closer relations with the Lower Peninsula—will be considered at a joint meeting of the Michigan Economic Development Commission and the Upper Peninsula Development Bureau to be held here Feb. 24 and 25.

The Economic Development Commission, which has just employed as managing director Maj. General Ralph Royce, World War II leader and native of the Upper Peninsula, has agreed to attend this meeting and to give immediate consideration to these problems.

The state Public Service Commission has also been invited, as have representatives of railroads serving the peninsula. Discussion of transportation needs will be on an informal, friendly basis in an effort to reach some solution of problems which will be mutually satisfactory to all interests.

In announcing that the commission had accepted the invitations to the joint conference, George E. Bishop, secretary-manager of the Development Bureau, said that he believed this meeting would be one of the most important to the future of the peninsula within his experience.

In addition to the two state commissions, invitations to the meeting have been extended to all directors of the Development Bureau, to railroad industrial agents, to all chairmen of local industrial development committees, all secretaries of Chambers of Commerce and to several others who have exhibited interest in the industrial development program, which has been under way for the past ten months.

C. Wesley Jenner of Marquette, chairman of the Economic Development commission on unification of the two peninsulas will report on the progress of his committee and will ask for suggestions as to steps which may aid the program.

ILLNESS ENDS ON A HAPPY NOTE — The lullabies that Mrs. Edna Eeeler, of Knoxville, Tenn., always wanted to sing to her 15-month-old daughter, Brenda Sue, were locked in her heart because a throat infection had kept her from speaking above a whisper for 15 of her 21 years. A recent operation in a Philadelphia, Pa., hospital restored her voice to full power and now she sings a song of happiness.

Glass Has Replaced Bars in Zoo Cages

Chicago, (SS) — Shatterproof glass like that used on wartime airplanes has replaced bars in some of the cages in Chicago's Zoological Park. So strong is it that when several powerful great apes attacked it vehemently, immediately after its installation, they were completely baffled. Some of them continue stubbornly to hammer at it, but all they get is exercise.

The glass is of a familiar sandwich construction, consisting of two quarter-inch sheets of plate glass on the outside with a layer of tough plastic between them.

Glass fronts on cages in reptile houses have previously been in use, but these consist of one thickness of plate glass only, and would not be safe for use in confining more aggressive animals like chimpanzees and orang-utans. There are mutual advantages for animals and spectators in this more complete separation. Visitors can no longer toss peanuts, in violation of the rules, and poke through the bars at animals with umbrellas and canes. On the other hand, mischievous or malicious apes are no longer able to reach out and grab the hair or necktie of an unsuspecting visitor getting too close to the cage.

Tahquamenon Falls Area Big Tourist Attraction

BY JAMES A. O. CROWE

Lansing, (AP)—Winter-weary souls who are thinking longingly of a summer vacation might well consider one of Michigan's most famous beauty spots—the Tahquamenon Falls region.

The poetic name—pronounced with broad "A's"—the accent on the second syllable—means "marsh of the blueberries" in an Indian dialect and applies also to the Upper Peninsula river that forms the falls.

The river figures prominently in the Hiawatha legend, and Longfellow reported that the hero built his canoe "by the rushing Tahquamenaw."

Located some 50 miles west of Sault Ste. Marie, the falls are second in size only to Niagara east of the Mississippi river. Some hold that the Tahquamenon Falls, buried as they are in isolated forest-covered hills, surpass Niagara in scenic attraction.

Golden Water, White Foam

The unspoiled water of the river, which has a unique golden cast tumbles over stratified rock cliffs in two steps—the upper and lower falls. The golden water, as it roars over the brink, breaks into pure white foam. With the sunlight catching jewels out of the foam, the dark green of pines and the pale green of birches as a backdrop, and not a sign of "the maddening crowd," the sight is unsurpassed in the United States.

Some people consider the lower falls the more beautiful, since the cataract is split in two by a forest covered island which is inevitably likened to a huge emerald.

The river, which was an important artery in the logging days, rises in the west part of Luce county and drains some of the largest swamp areas in the state. It is in these swamps that the river picks up its distinctive amber color. The main stream travels 94 miles in a generally north-eastern direction and empties into Lake Superior just north of Emerson.

The upper reaches of the river and its tributaries provide some of Michigan's best trout fishing, and the wide, deep lower stream shows promise of becoming one of the best pike fishing streams in the state.

Plans Another Boat
The beauties of the river and its falls can be reached by canoe, river boat or automobile. From Soo Junction, a "Dinky" railroad makes daily trips north

to the river where passengers transfer to river boats. They travel downstream through forests thickly populated by deer, bear and other game to the falls.

Plans are now being laid for another boat trip which will travel upstream through similarly wild country to the lower falls.

Automobile travelers driving west on M-28 from Sault Ste. Marie turn north on M-123 through Eckerman and Paradise. Turning west off the highway, cars are driven through almost-wilderness to a parking space from which the lower falls are reached by a ten-minute walk.

Four miles still farther west, the road ends. Here the sightseer takes to the woods over well-marked trails to reach the brink of the gorge.

At that point, the visitor, through a frame of lush foliage, gets his first glimpse of the flashing upper falls.

Azalea plants last longer if kept in cool humid atmosphere during the day. They thrive at a temperature of 50 to 60 degrees. Moderate watering is best. Soil needs to be kept acid. If leaves start to show yellowish green, dissolve a little alum in the water which is used for watering.

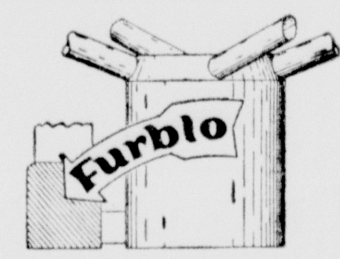

Furblo for Comfort-Health-Economy IN WINTER IN SUMMER

FURBLO gives you an abundance of clean, healthful, invigorating warmth throughout every nook and corner of your home. Takes the remote, hard-to-heat rooms as warm and comfortable as those close to the heater.

FURBLO makes your heating plant respond instantly to the rapidly varying demands of changeable weather. Heats the house quickly and easily on winter's coldest, windiest days. Scientific research at the University of Illinois shows that without increasing fuel consumption, a modern forced air system such as FURBLO provides actually delivers 34% more heat at the warm air registers than a gravity circulating furnace.

Your home stays cleaner. Drapes, wallpaper, upholstery, rugs—stay clean longer and last longer.

COSTS VERY LITTLE

FURBLO is easily made part of your present heating plant. Present cold air pipes are disconnected from the furnace and connected to FURBLO (as shown above) and simple electrical connections are made. Your heating contractor will tell you what other changes (if any) are needed.

Many fever sufferers report complete relief in an atmosphere of FURBLO filtered air. Controlled air circulation such as FURBLO gives, is the basis of all air conditioning—either winter or summer. FURBLO converts your present heating plant into a year 'round comfort system. Economical comfort, cleanliness, health throughout the year. Adds much more than its low cost to the VALUE of your property.

You and your family keep healthy. There are fewer coughs, colds and other winter ailments. The family stays fit, comfortable and happy.

Use our easy pay plan. Up to 3 years to pay.

CHINESE PAPERS CRITICIZE U.S.A.

Development Of Japan And Pacific Islands Attacked In Press

BY JOHN RODERICK
Shanghai, Feb. 11 (AP)—Chinese criticism of the United States' role in Japan is increasing. Editorials in the government controlled press are taking an almost identical line.

The United States (they say) appears intent on developing Japan as a 49th state. It is seeking to make Japan a bulwark against Russia. Meanwhile, China is being neglected.

The lifting of Japanese trade restrictions and the aid of all sorts poured into that country are causing the Chinese to chafe. Divided by civil war and with her own economy blasted, China does not like to lag behind.

Chinese also are concerned over who will get the Ryukyu Islands, which include Okinawa. Okinawa is being put into shape by the United States as a military base. China claims centuries-old ownership of this chain of islands, which form stepping stones from Formosa to Japan. She will press her claim in any peace treaty talks.

Elements in the Kuomintang (China's governing party) have been quick to attack reports that the United States will exploit resources of Formosa.

\$2,888 Distributed In Reverted Taxes

Tax reverted land funds received by the office of the Delta county treasurer for November and December is being distributed to the townships and cities wherein the lands are located. The checks distributed are in the following amounts:

City of Escanaba \$1,044.90; townships of Bark River \$50.99, Cornell \$567.59, Escanaba \$250.49, Ford River \$245.04, Garden \$44.75, Maple Ridge \$155.60, Masonville \$370.50, Nahma \$7, Wells \$91.40.

Bank Officials To Attend Conference

Five representatives of banks in Escanaba are attending a study conference in Marquette today and tomorrow, for Upper Peninsula bankers.

Edward Moersch, of Escanaba National Bank; Carl G. Nelson and Earl B. Harris, of First National Bank, and William Warming and Carl Wickman, of State Bank, are attending.

The conference is arranged by the Michigan Bankers association.

Strike Postponed By Philadelphia's Transit Employees

Philadelphia, Feb. 11 (AP)—Philadelphia's 11,000 transit workers have postponed their scheduled strike for five days.

The walkout was delayed last night two hours before the midnight deadline.

A tieup of the Philadelphia Transportation company's vast subway, elevated, bus and trolley system would affect 3,000,000 riders daily.

Postponement until Sunday midnight was voted by more than 2,500 members of local 234, CIO-Transport Workers Union meeting at an emergency mass meeting. It was by voice vote.

Local President Joseph B. Dougherty said the PTC had made a new wage offer "but it is still unsatisfactory to us. The company indicated it might be able to make a better one."

PTC upped a six-cent hourly wage boost offer to 10 cents. Dougherty told the workers. The union asks a 40-cent hike.

Special Program
At Jefferson P-T
Monthly Meeting

An interesting and inspiring program featured the Founders' Day meeting of the Jefferson Parent-Teacher association, held Tuesday evening in the school auditorium, with Mrs. Roy Swanson presiding.

Mrs. A. W. Erickson, district director, spoke on Founders' Day, and stressed the theme that "the hope of the world lies in little children." Mrs. Victor Powers gave an intensely interesting talk on children's art, pointing out that children are the truest artists, and warning against judging their work in accordance with adult standards.

A piano solo, "Un Suspiro," Franz Liszt, by Mrs. Edward Stratt, also was greatly enjoyed.

Art work of children of all grades was displayed in the auditorium and used by Mrs. Powers in illustrating her talk, and the decorations were in blue and gold, in honor of Founders' Day. The blue and gold theme also was used in the table centerpiece during the social hour.

Hostesses were Meses Oliver Lund, Edward Stratton, Brendan R. Williams, Robert Nault and Leif Nelson.

The attendance award was won by Miss Jean Bellstrom's fourth grade. The meeting was marked by a record attendance of both fathers and mothers of Jefferson children.

Young Musicians
Give Concert In
JHS on Thursday

Music students of Escanaba junior high school, under the direction of Albert Shomento and Miss Lisabette Krahn, will present an instrumental concert for JHS students Thursday afternoon at 1:45, in the school.

The program will consist of several instrumental solos, duets, trios and orchestral numbers. All performers are students of the junior high school.

First on the program will be a violin solo, "Tschalkowsky's 'Chanson Triste' by Charles Cose, Nancy Kiedren, David Gilbert, John Pelotti, Joan LaComb and Francis Arley will then offer clarinet quintet work after which Maxine Bernsten will perform "Annie Laurie" as a viola solo.

Joan Nelson will be heard in a flute solo and a violin trio, of Marion Steede, Judd Yelland and Mary Nelson, will present "Flow Gently Sweet Afton." Miss Lisabette Krahn, instrumental instructor, will play string bass solos.

Two bass solos, "Camptown Races" and "Sailors Hornpipe," will be played by Irma Paul, Ronald Nelson and John Pederson will be heard in a trumpet duet after which Rosemary Nault will play "Waltz in G," on the cello.

The 10th number on the program will be a trombone solo by Nancy Farrell. An Andante of Haydn will be played as a viola solo by Betty Nantell and Eileen Johnson will render a piano solo Chopin's "Prelude in C Minor."

A cello solo by Beverly Brower will be followed by a violin solo, "Sweet and Low" by Nancy Larson. Another violin solo, "Aldie With Me," will be played by Mary Berelund. A series of trumpet numbers will then be presented by Gary Grenholm, Stephen Mason and Paul and Alan Davidson, who will play a quartet and duets.

The final portion of the program will consist of several numbers by the junior high school band.

Thelma Bradley,
George N. King
Exchange Vows

In a ceremony which took place Tuesday afternoon at three o'clock at the First Presbyterian church, Thelma V. Bradley, daughter of Mrs. William Rice of Rapid River, and George N. King, of Escanaba, son of Mr. and Mrs. Burt L. King, of 412 South Seventh street, exchanged marriage vows.

The service was read by Rev. James H. Bell. Attending the couple were Mrs. August Larson, Jr., of Rock, and Robert W. Kelly, of Escanaba.

A wedding supper at the Delta Hotel and a reception at the home of the bridegroom's parents followed the ceremony.

The couple will live in Escanaba. Mr. King is a member of the staff of station WDBC.

Elaine J. Rouse
Is the Bride of
Harold Duncan

In a prettily appointed wedding ceremony which took place Monday morning at 9 o'clock at St. Patrick's church, Elaine June Rouse, daughter of Mr. and Mrs. Robert Rouse, Escanaba, Route One, became the bride of Harold Duncan, son of Mr. and Mrs. Charles Duncan, of 321 Ludington street.

The vows were spoken before Rev. Fr. Howard Ruppe, celebrant of the nuptial high mass. Attending the couple were Mr. and Mrs. John Roschyk, brother-in-law and sister of the bridegroom.

The bride wore traditional white satin, the gown styled with a net overskirt, and her veil of illusion, caught to a coronet of orange blossoms, was full length. She carried a shower bouquet of white carnations.

Mrs. Roschyk wore aqua blue floor length and a matching veiled headpiece and she carried pink carnations.

Mrs. Rouse wore old rose crepe with black accessories and a corsage of carnations, and Mrs. Duncan, navy blue with white accents, and a like corsage.

Will Live Here

A wedding breakfast was served at the Duncan home, and a reception for 75 guests was given by the bride's parents in the dining room of the I. O. O. F. hall. Flowers and the tiered wedding cake formed the decorations.

The couple will live in Escanaba. Mr. Duncan is employed by the City of Escanaba, at the steam plant.

Guests at the wedding included the bride's sisters, Mrs. Ole Peterson, of Chicago, and Mrs. Edmond Stevens of Gladstone, Stanley Siko of Bark River; Mr. and Mrs. Al Steede, Gladstone and Wallace Cartwright, Wells.

A board meeting also was held recently at the home of Mrs. Brackett.

Folk Melodies
On Program Of
Augsburg Choir

One of the Scandinavian folk melodies to be sung by the Augsburg College Choir in its concert program at the Bethany Lutheran Church Monday evening, February 16, is a well known Swedish song "Pa Lindekst".

Dr. T. O. Burntvedt, President of the Lutheran Free Church, has written the sacred English text, and Prof. Leland B. Sateren has made the lovely arrangement for mixed voices which the choir will sing in its appearance here.

Dr. Burntvedt has made many fine translations from the texts found in Norwegian hymnology, and as Dr. Burntvedt is well known in this city the selection "A Song in My Heart" should be of special interest to the Escanaba audience.

The concert will begin at 8:00 p. m., and is sponsored by the Immanuel Lutheran Church, Rev. L. R. Lund, pastor.

Good Citizenship
Pins Awarded At
D. A. R. Dinner

The annual Washington's birthday dinner of Lewis Cass Chapter Daughters of the American Revolution, was held at the Delta Hotel Monday evening.

Following the dinner, Miss Alice Potter, chairman of the good citizenship pilgrimage committee, presented the awards to four outstanding girls of the county high schools. These girls are chosen by the student body and faculty of their respective schools on the basis of respectability, which includes truthfulness, loyalty and punctuality; service, including cooperation, courtesy, and consideration of others; leadership, including personality, self control, and ability to assume responsibility; and patriotism, including unselfish interest in family, school, community and nation.

The girls honored are Helen Canuelle, of Gladstone, Irene Strand of Rapid River, Joanne Reno of Rock and Eunice Holmes of Escanaba high school. These girls are eligible to compete with

other good citizenship girls, two of whom will be chosen from each state to attend the Continental Congress in Washington, D. C. in May.

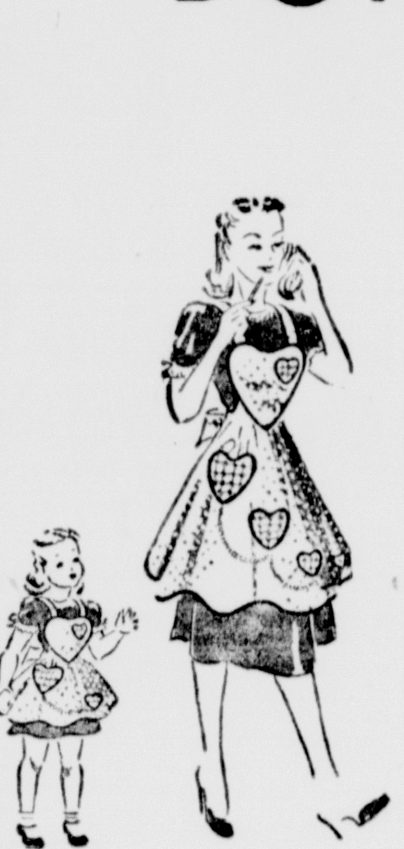

Three of the girls received their good citizenship pins. Miss Holmes will receive hers on Honor Day. Mrs. W. J. Anthony gave a group of piano numbers, selections from a collection entitled "Music that Washington Knew."

Richard Morenus, guest speaker for the evening, gave a most delightful and informative talk on his experiences in the "bush country" of Canada.

Mrs. Stegath, Chairman

Mrs. G. E. Stegath was in charge of the program, and dinner arrangements were in charge of Miss Alice Potter, Mrs. C. S. Norton, Mrs. E. B. Johnson.

Mrs. John Anthony and Mrs. Richard Morenus also were guests of the Chapter.

ONE INJURED IN CAR CRASH

**Jule VanDamme And
Bill Carrier Cars Hit
Head-on**

Bill Carriere, 22, city, was taken to St. Francis hospital Tuesday night suffering with head and chest injuries sustained when an auto he was driving struck an auto driven by Jules VanDamme of St. Nicholas almost head-on on M-35 south of Perkins.

Michigan State Police, who investigated the accident, said Carriere was driving on the wrong side of the road and would be arraigned for violation of traffic rules.

Both autos were reported to be total wrecks. The auto Carriere was driving was owned by his brother, Clarence Carriere, city.

Carriere was brought to the office of a local physician for treatment and then removed to Escanaba for hospitalization.

Past Commanders Of Legion Meet Friday

The first of two 1948 meetings of the Past Commanders Club of August Mattson Post, American Legion, is to be held Friday, Feb. 13, at the George Beaudry camp on the Whitefish.

This will be the third meeting since organization of the club in 1946.

The organization meets only on Friday the 13th. In 1947 there was but one such day. This year there will be two, the second falling in August.

There are about 18 members of the club residing locally. Clifford Murker is the present president.

Man-Made Flooding Threatens Missouri

New York—Man-made bodies of water will cover thousands of sites on the Missouri River where important chapters of the history of America before the time of Columbus lie buried, a scientist warned here.

Dr. William Duncan Strong, Columbia University anthropologist, explained that scientists must "race against time" in saving early remains which will be flooded in dam construction projects on the Missouri.

He urged the United States to follow the lead of Russia and certain other countries in preserving prehistoric sites. In the U. S. S. R., Dr. Strong explained, "archaeological sites and materials are regarded as belonging to the nation and before any archeological site can be disturbed, either by individual or state action, it must be scientifically excavated."

Iowa when he was 13. He joined the staff of the Ottumwa, Ia., Courier in 1897, and became publisher in Davenport in 1899. He was named president of the Lee Newspaper Syndicate in 1907.

Perry, 72, has been a director of the Associated Press since 1923, and served as second vice president in 1939-40. He was born in Pontiac, Mich., and is a graduate of the University of Michigan Law School. He became managing editor of the Pontiac Press in 1901 and published the St. Johns, Mich., News from 1902-06 before taking over the Adrian Daily Telegram in 1907.

Water Mains Frozen
Due to the continued severe cold, residents are experiencing a return of the "good old times" when they had to carry water for several rods, and in some cases, blocks. Branch mains were affected first of all but for several days a portion of the central main was plugged at the foot of the Church Hill.

Personals
Mrs. Robert Tatrow, jr., returned to St. Ignace Sunday after spending three weeks at the home of her mother, Mrs. Nora Lester.

Joseph Desocher left Wednesday morning to visit his daughter Elizabeth, Mrs. Robert Berg, in Depere. He was accompanied by Escanaba by Charles Gauthier.

Mrs. Edna Clark motored to Escanaba Wednesday.

St. Nicholas

St. Nicholas, Mich.—Mrs. Henry Depuyot entertained a few relatives Friday evening at her home in honor of her husband whose birthday is Feb. 6.

Mr. and Mrs. Raymond DuChance of Groos, and Mr. and Mrs. Peter Vermote of Flat Rock, visited with Mr. and Mrs. Leonard Arbour on Sunday.

Mr. and Mrs. Leonard Arbour and daughter Mary Ellen, visited Friday in Flat Rock at the home of Mr. and Mrs. Elfridge Newhouse.

Mrs. Frank Falkies of Cornell, the former Martha Verbugge of this community, underwent an operation for removal of appendix at St. Francis hospital last week.

POSE PROBLEM****City Fathers Feel That
Users Should Pay For
Thawing Services**

The problem of thawing out frozen water mains still continues to be serious, James Dickson, city manager, notified the city council at its regular meeting Monday evening.

During the recent cold snap there has been an average of twenty homes needing help and the employment of crews and the use of special thawing devices has cost the city on an average of \$100 per day, Dickson said. It was the general opinion of the councilmen present that the people served should be required to stand at least a part of the expense involved but the matter of stipulating the amount to be charged and how to determine the circumstances under which the patron is responsible, was deferred to a later meeting.

At the request of its owners George W. Kerr and Theodore Richards, the application for an 8-months C-Tourist Liquor license for the Paul Bunyan Cook Camp was given favorable consideration and a resolution favoring such a license was ordered sent to the state liquor commission. Application for a restaurant license for this same establishment was also approved by the council.

D. M. Creeger, applied to the council for a permit to remodel the front of the building now occupied by the A. & P. Grocery, but which he plans to occupy in the near future. The change would involve principally the replacing of the windows in the second story with solid masonry. The change was approved subject to approval by the city manager and the fire chief.

Extension of the fire zone limits was discussed, but no action was taken.

A request from the local post of the American Legion that the Manistique City Council grant permission for an organization of a "Historical Commission for Manistique" was read. The council members expressed approval of the idea, but decided to seek a bit more light on the subject. The city clerk was instructed to communicate with neighboring communities having something of this sort for information to use as a basis for further discussion.

**High School To
Present Lincoln
Program Feb. 12**

The memory of Abraham Lincoln will be honored by students of Manistique high school at a program in the school auditorium Thursday afternoon. The public is cordially invited to attend.

Following is the program: Salute, Boy and Girl Scouts Music, America, played by the band and sung by the audience. Recitation, "O Captain, O, My Captain," Joan Sheehan Violin solo, Iggy Babladelis Short talk, "The Life of Lincoln," Mildred Kerridge Trumpet solo, James Monroe Speech, "Lincoln's Philosophy Today," Dan Giovannini Recitation, "Lincoln's Gettysburg Address," Dan VanEyk Song, National Anthem.

**Pleads Guilty to
Reckless Driving**

Connie Jahn pleaded guilty in justice court Monday to a charge of reckless driving against him by a member of the state police and was fined \$25 and costs. The case in court came as an aftermath of an accident Sunday morning, in which the defendant was slightly injured.

City Briefs

Mr. and Mrs. J. Ray left Sunday for their home in Belvidere, Ill., after spending several days at the home of Mr. and Mrs. John M. Hewitt, US-2.

Mr. and Mrs. Peter Stamness have returned from Chicago where they spent the past two weeks on business.

**Gold Discovered
In California**

Berkeley, Calif.—Most Californians are celebrating the one-hundredth anniversary of the discovery of gold which led to the famous gold rush. But a scientist at the University of California here announced that he, too, has discovered gold—at least two new varieties of the element gold plus one new type of platinum.

The new discoveries of precious metals will not set off a new gold rush. They were made with the atom-smashing 60-inch Crocker Laboratory cyclotron at the University. Chemical separations of bombarded metal targets in the atom-smasher revealed new radioactive forms of the precious metals. Geoffrey Wilkinson reported in the Physical Review.

**Boy Scout Week Here Is
Off To Impressive Start**

Boy Scouting was effectively and impressively featured in exercises in which parents were honored guests at the assembly room of the junior high school building Monday evening.

There was a program of movies, musical numbers, talks and hon-

ors for Scouts who had made progress in the past year.

The events of the evening began when thirty-five Scouts marched before the assembly and repeated the Scout oath. This was followed by words of welcome by Scoutmaster Ben Karwoski who praised the forty parents who were present at the meeting and urged their cooperation in making Scouting of lasting import to their boys. They then introduced Ed Kot, district executive, who discussed Scouting activities in the local area and presented two second class badges. Following his talk he led the boys and parents in group singing.

**POLIO DRIVE
SCORES AGAIN****Campaign Chairman Is
Grateful To Those
Who Assisted**

Much gratified over the response the people of Manistique and vicinity have given to the March of Dimes campaign, now drawing to a close, Mrs. George Stephens, city chairman in the drive here, today expressed thanks for the support and interest shown.

The people of Manistique gave freely of their time, effort and money to assure success of the campaign, says Mrs. Stephens. She states that she is particularly grateful to the American Legion Auxiliary, the Press, teachers in our public schools, the Sisters in St. Francis de Sales school, industry, civic and fraternal organizations for their wholehearted cooperation while the campaign was in progress.

"Through the unstinted generosity of the people," says Mrs. Stephens, "we have again assured the National Foundation that no infantile paralysis victim in our community need go without the best available medical care and treatment and that we are doing our part in aiding the foundation to continue the research work that will eventually solve the mystery of this dread disease."

Letters and appeals have been sent out, but many have not, as yet, responded. It is not too late, Mrs. Stephens assured those who have been tardy in their response, to send in their contributions, as the time for closing the campaign has been extended to February 15.

A small amount of salad dressing may be quickly made if four tablespoons of oil are shaken in a small glass jar with two tablespoons of mild vinegar and one-half teaspoon of salt. The jar should be tightly covered and the ingredients should be extremely well shaken. A light grinding of black pepper will add excellent flavor of added to the salad on which the dressing is poured.

Leather bags are used for carrying water in many countries because leather "breathes" and water kept in it tends to remain fresh and cool.

Approximately 85,000,000 tons of freight move in and out of New York City every year.

A moving picture "Scouting Trails" as then presented. The movie depicted activities in the lives of boy Scouts from the time they are members of the Cub pack and on to Senior Scouts.

Two of the Scouts of Troop 461 showed their ability in music when Iggy Babladelis played a violin solo accompanied by his brother Nick.

Wallace Watt, district commissioner, told of some of his experiences while touring many countries for the Boy Scout movement. At the close of his talk he presented one first class badge.

The climax of the evening came in the investing of 19 tenderfoot Scouts. In an impressive ceremony, the Rev. Paul Sobel, Scout commissioner for Manistique, after congratulating the boys in the important step they had taken in becoming Scouts, called upon a parent for each boy to stand behind him or her son while the boys formed in semi circle received from his parent the tenderfoot pin. This ceremony, conducted by candlelight, was a most impressive sight.

The Scoutmaster closed the ceremony with the Scoutmaster's Benediction and the audience, including Mr. Jehn, Cub Commissioner of Nahma, Father Oremus, five of his young Scouts of Garlen and the 35 boys of Troop 461 were dismissed to enjoy lunch in the home economics room.

Sandra Schneider, daughter of Mr. and Mrs. Paul Schneider, North Third street, celebrated her third birthday anniversary Friday afternoon by entertaining several of her friends at her home. Games were played and lunch was served from a table decorated in the Valentine motif. Sandra received many lovely gifts from the following friends: Carol Fiebernitz, Lynn Besner, Peggy and Kay Norton, Patricia Schneider, Sylvia and Jimmy Tufnel, Janell Bertrand, and Myrna and Janice Schneider.

Birthday Party

Laura Parker entertained thirteen guests at a birthday party Saturday afternoon at the home of her grandparents, Mr. and Mrs. George Marks, 529 Cherry street, the occasion being her fifth birthday anniversary. The afternoon was spent in playing games after which a delicious lunch was served. A large pink, white and blue birthday cake centered the attractive table which was decorated in the Valentine motif. Laura received many nice gifts from her guests who were: Ricky Willie, Billy Gentz, Judy Kennedy, Carol Jackson from Gulliver, Margene Creeger, Elizabeth Orr, Terry Hartman, Wanda LaBar, Marlene Marks, George Marks, Ed Leonard, Jr., and Gloria Jean and Joyce Sylvester.

**SKATE SHOW
HERE FEB. 22****Figure Skaters Will
Have Big Part In
Program**

Figure skaters who will take part in the Manistique Ice Show, to be presented Feb. 22, at the rink near the quarry, were announced today by Renold Anderson, president of the Manistique Skating club. Those who will appear in the various acts are: Margaret Mueller, Margaret Quick, Jo Anne Minor, Patsy Popour, Catherine Green, Shirley Monette, Donna Popour, Sandra White, Lenora Bassett, Alice Roussin, Gail Lundstrom, Will Pelon, Dorothy Selling, and Patty Burnis. It is expected that additional persons and acts will be added to the program, as the practice continues.

The rink will be reserved Thursday evening for the use of the figure skaters, and no other skaters will be allowed that evening. Any other persons who think they may contribute to the figure skating program, are asked to be there Thursday evening, by the instructors, Earl LaBrasseur and Mr. Anderson.

Children interested in entering any of the skating races, also a part of the Feb. 22 Ice Show, are asked to turn in their entry blanks to either of the skating instructors, or Thor Reque. Races will be run off for various age groups, with attractive prizes for the winners. There will also be a trophy for the winner of the figure skating competition.

**Special Service for
Children On Friday**

There will be a special service for children of all denominations at the Methodist church next Friday afternoon immediately after school. This service will be something new in the annual World Day of Prayer and children of ages from first to sixth grades are invited. Mrs. Alex Robertson will have charge of the service.

The regular meeting for women in observance of this occasion will be in the afternoon at 2:30 o'clock. This is an annual fellowship which this year will base its deliberations on the Lord's Prayer.

ESCANABA DAILY PRESS SPORTS "It Seems To Me"

BY JIM WARD

Word was received here this morning that on the basis of their past records Wilho "Spud" Millimaki and Robert "Pinky" Anderson of the Escanaba Ski club are eligible to compete in Class B in the Central U. S. ski association ski jumping tournament in Ironwood Sunday.

That means that Escanaba has seven riders eligible for the official Central classic, a commendable showing for a first-year club.

Others qualified to compete are Walter Alexander, John Grodesky, Ted Belfry in Class B, Fritz Pohlman in Class A and Emmett Levy in the senior class.

Levy, incidentally, is the 1948 Michigan state senior champion on the strength of his win in that event at Caspian Sunday.

Only six of these seven, however, are expected to compete. Pohlman is definitely out, having torn several arm ligaments in a peculiar fall while competing in Caspian. He took off well, landed well, but his skis rutted in the outrun and caused him to fall over backwards. He will be out for the season.

The pony express just arrived from Manistique with the report that Paul Vezina, of Manistique, placed third in Class C at St. Paul Saturday with two leaps of 152 each and a 130.3 point total. J. Quick, Manistique, placed tenth. He leaped 160 his first try but fell and hit 149 on his second.

The "jumpers" were certainly busy last week. Many of the riders jumped in St. Paul Saturday afternoon, in Menominee, Wis., Saturday night and in Westby, Wis., Sunday afternoon. That's hitting it heavy.

Stopping in for his regular weekly visit, Escanaba's John Grodesky got that far-away look in his eyes when he contemplated the three big meets coming up—Ironwood Sunday, Feb. 15, Ishpeming Sunday, Feb. 22 and Iron Mountain Saturday and Sunday, Feb. 28 and 29. A big windup for a busy season!

ODDS AND ENDS: That first goal is important in hockey . . . A statistician recently uncovered this bit of information: In 111 National Hockey league games, the team that scored the first goal won 59 times, lost 20 and tied 22 . . . Watch for night ski jumping to boom as the years roll by . . . They're hot for it in Menominee, Wis., Duluth and it has been tried on a moderate scale in some U. P. communities.

Many Escanabans have expressed the desire for a revival of curling, that grand old sport of the bonspiel (match), rink (name of team) and skip (member of team) . . . Ice curling, in which the principle of play is similar to lawn bowling or shuffleboard, is a popular Canadian sport invading the United States . . . Northern Minnesota, principally Duluth, is a hot curling center . . . We have seen our grandfather play the game in Three Rivers, Quebec, and it looks to be a good deal of fun.

It must have a history in Escanaba, for George Grenholm says he has in his possession at the recreation building several "irons". The objects which are skidded down the ice toward the horizontal target . . . If any oldtimers care to comment on any bonspiels Escanaba might have had in the past, we'd like to hear about it . . . The indoor rink at the state fairgrounds would be a natural spot for a revival.

Just to give you some idea of how rampant is enthusiasm for curling in Canada, listen to this: "Entire families drive 30 to 40 miles in sleighs equipped with wood burning stoves as protection against 40 and 50 below temperatures to watch the 'spiel' from early morning until late at night. More than \$7,000 was realized in admissions and entries paid \$100 a rink for the privilege of competing." . . . And, no wonder! The first prize for each member of the winning team was a 1948 automobile . . . That is from a writeup of a big 'spiel' in Nipowan, Canada.

Dodger Gridders Have New Coach And Eight Players

Brooklyn, N. Y., Feb. 11. (AP)—Brooklyn's gridiron Dodger Gridders today were one good step up a long trail to success in the All-America football conference.

They have a new coach and eight new players signed to contracts. Now, Branch Rickey declared, "be patient with us and we will have the best football club in the league."

Rickey, who spends most of his time guiding the baseball Dodgers, didn't suggest how long patience would have to substitute for results.

Carl Boyles, formerly of Auburn, is the new coach and director of football. Rickey announced yesterday that Boyles had signed for three years. As usual, he didn't say for how much.

Miss Wall Qualifies In Palm Beach Meet

Palm Beach, Fla., Feb. 11. (AP)—Match play begins today in the annual women's golf championship of Palm Beach with medalist Polly Riley, of Fort Worth, Texas, leading the field.

Her score was a stroke better than that of Peggy Kirk of Findlay, O., who was medalist in the tournament a year ago.

The 48 qualifying berths drew 55 women golfers, who needed 87 or better to get into the championship flight.

Mary Agnes Wall of Menominee, Mich., qualified with an 81 score.

Dodds Out Until Outdoor Season

Boston, Feb. 11. (AP)—Halted by mumps, Gil Dodds, the 4:05.3 mile record-maker, has run his last indoor race, according to Jack Ryder, his veteran coach.

Stricken Monday, Boston's famed Flying Parson will be hospitalized until late next week.

"Then he will return to his Wheaton, Ill., home to rest up before starting his outdoor training for an Olympic team berth," Ryder continued. "So I guess he has run his last indoor race."

JURY ACQUITS NEGRO

Detroit, Feb. 11. (AP)—Leroy Willis, 23-year-old Negro lightweight boxer, was freed today of a charge of raping a 14-year-old girl. A Recorder's court jury took only four minutes Tuesday to vote acquittal.

MAROONS PLAY ESKYS FRIDAY

St. Joe Trojans Set For Invasion Of Stephenson

None too happy about their showings thus far this week, the Escanaba high school Eskymos and St. Joseph's Trojans today began the task of preparing for Friday night games that promise to be just about as tough as anything that has confronted them to date.

The Eskymos, victim of a surprise 33-28 defeat at the hands of the Gladstone Braves on the latter's court last night, will be host to the up-and-down Menominee Maroons, who have been mostly "up" of late.

The Trojans will invade Stephenson. The Steves gave St. Joe all the fight they could bargain for here Dec. 20 before bowing, 43-37, and on their own court Friday night they figure to be an even more formidable obstacle.

When last the Eskymos and Maroons tangled, the Menominee quintet came out on top by the handsome margin of 42-32. That was in Menominee January 17. Since then the Eskymos have lost close ones to Ishpeming, Iron Mountain, Gladstone and stopped Sault Ste. Marie, 35-31.

St. Joe's record to date stands at nine victories and seven defeats, its last loss being a 33-27 encounter with Lourdes of Marinette here last Sunday.

The Eskymos have won only four of 11 contests, but all except one of their defeats have been exceedingly close. All of which indicates Escanaba has power-laten power.

Gene Glick, sophomore sharp-shooting forward passer on Michigan State's football team from Saginaw, Mich., has turned to baseball for spring activity. He is considered a bright prospect for the Spartan mound corps.

The Eastern Intercollegiate gymnastic meet is scheduled for West Point on March 13.

FLYING START — Carl Braun, New York Knickerbockers' prize rookie, fires an overhead shot that has been good for 446 points in 31 games. As a pitcher, the Colgate alumnus signed with the Yankees, and will report to the Newark farm club.

Manistique To Enter 4 In Central Ski Tourney

Manistique, Feb. 11 — Manistique expects to enter at least four jumpers in the Central U. S. Ski association championship tournament being sponsored by the Gogebic Range Ski club in Ironwood Sunday.

PGA Mission Should Be U. S. Youth

By Hugh Fullerton, Jr.
New York, Feb. 11. (AP)—Robert Hudson of Portland, Ore., who sponsored the revival of the Ryder Cup matches last fall, is willing to underwrite the proposed junior team match between American and British kid golfers which the Professional Golfers Association is considering as a "top" to its new youth program . . . with the U. S. G. A. stepping in to run a junior championship, this match could be a natural . . . but this corner holds the belief that the P. G. A. has a bigger job to do . . . that is to get its member pros busy organizing teams, leagues, anything to provide competition and arouse interest in high schools, playgrounds, etc., and persuading their clubs to let the kids use their courses . . . it isn't the boys who play good enough golf to win titles and international matches that the P. G. A. and U. S. G. A. programs have to reach—it's the kids who never heard of golf and who think upsetting ash cans or heaving bricks through windows is a more exciting pastime.

Pros Start Tearing Harlingen, Texas, Golf Course Apart

BY HAROLD V. RATLIFF
Harlingen, Texas, Feb. 11. (AP)—The crack shots of goldfom have started tearing Harlingen municipal course apart, indicating that the lower Rio Grande valley open beginning tomorrow will see the worst debacle in par, wrecking along the winter tournament trail. Fresh from the Texas open at San Antonio where the touring pros and a sprinkling of amateurs bested regulation figures 148 times in three days of rain and cold, the field moved through its second tune-up over the 6,045 yard course, with 15 of the entries having already clipped par 35-36—71 figures.

Some of the others either didn't play the full course or didn't keep score as they practiced putting on each green. Ben Hogan, Jimmy Demaret, Bobby Locke and national open Champion Lew Worsham joined the touring brigade today. They flew from San Antonio to Corpus Christi for an exhibition yesterday while their fellow players got in first rounds at the local course. Some 175 will begin the battle for the \$10,000 in prizes tomorrow but 75 of them will be eliminated in the first 18 holes. This means of thinning the field was taken in preference to a qualifying round eighteen more holes will be played Friday. The low 60 and ties will go into 18-hole rounds Saturday and Sunday.

The record for the course over the 72-hole route is 266, set by Henry Picard in 1941. The 20-year-old Gonzales said last night: "When a representative of the Bank of Mexico made the offer I didn't realize that if I accepted I would lose my American citizenship."

Gonzales Refuses Offer to Play On Mexico Cup Team

Los Angeles, Feb. 11. (AP)—Tennis player Richard (Pancho) Gonzales says he has turned down an offer to represent Mexico in the Davis cup challenge round play next summer.

The 20-year-old Gonzales said last night: "When a representative of the Bank of Mexico made the offer I didn't realize that if I accepted I would lose my American citizenship."

JACKSON LOSES LEAD

Flint, Mich., Feb. 11. (AP)—Jackson Junior college slipped from the leadership of the Michigan JC conference basketball race last night, losing to Flint in overtime 68 to 62. The home team's Cornelius Oxendine topped the scoring with 29 points, and flipped a goal that tied the score for Flint in the last 10 seconds of regular play. Four straight baskets by Jerry O'Rourke enabled Flint to dominate the overtime period. Dearborn JC, idle last night, took over the conference lead.

Chuck Davey, Michigan State's defending National Collegiate 135-pound boxing champion, is a disbeliever in the jinx associated with the number "13." Davey's proof was his technical knockout over Lex Caswell of Minnesota which was his 13th consecutive triumph in intercollegiate boxing.

OAKS WANT YORK

Oakland, Feb. 11. (AP)—First Baseman Rudy York, made a free agent by the Chicago White Sox, has a tentative offer to play with Oakland of the Pacific Coast Baseball League. York has not indicated whether he is interested.

Madison Square Is Doggy Place Now

New York, Feb. 11. (AP)—Madison Square Garden went to the dogs today.

The best canines in the country—2,540 of them—were on display in the 72nd annual Westminster Kennel club show.

All but the puppies already are blue ribbon winners. Tomorrow night a new best of show champion will be picked from a half dozen variety group winners.

The blue ribbon feature of the show is new. Only dogs that won first at previous shows licensed by the Canadian or American Kennel clubs have been admitted.

TRENNY BOWS TO ROCK FIVE

Ouellette Tops Scores But His Team Loses, 49-27

Rock, Feb. 11—Rock high school posted another victory in Central U. P. D-E Basketball league play at the expense of Trenary here last night. The score was 49-27.

Nynas set the pace with 12 points, and Norden collected 10, but high scoring honors for the game went to Trenary's sharp-shooting forward, Ouellette, who bagged 14 points on five field goals and four free throws.

In the preliminary, the Trenary girls defeated Rock's lassies, 24-23. Rock will be host to Daggett Friday.

Powerful De Paul Humbles Lawrence Tech Five, 73-47

Chicago, Feb. 11. (AP)—The usually high scoring Lawrence Tech quintet ran up against powerful De Paul last night and dropped a 73 to 47 basketball decision.

The Blue Devils were completely outclassed and their ace Norm Hankins was held to one field goal as De Paul turned on the pressure with its regulars for 24 minutes and then sent in a second team to coast to victory.

TB X-RAY WILL COME TO DELTA

State Health Dept. Unit
Will Give Free Tests
Starting Feb. 19

The state health department's mobile x-ray unit to give free chest examinations in the detection of tuberculosis will come to Delta county Feb. 19 and be stationed at various communities from that date through March 26, it was announced today by Dr. William Harrison, Delta-Menominee health district director.

Now in Menominee county, the unit travels from one county to another in Michigan providing free chest x-rays as a part of the program to control and eventually eradicate tuberculosis.

22 Cases Here
Last year in Delta county there were 22 new cases of tuberculosis discovered. Of this total, 12 were from Escanaba, 2 from Gladstone and 8 from the county. Tuberculosis deaths for the county totaled 8, about the same as the year previous.

Before the large scale use of x-ray, physicians had to depend on the examination of persons who had the symptoms of tuberculosis—a hacking cough, spitting blood, and others which are really symptoms of advanced cases where the illness has already been communicated to others.

The purpose of the chest x-ray program is to find early tuberculosis when the disease can be cured in the shortest time with the least inconvenience to the individual, and before the disease has spread to others. Tuberculosis is not hereditary and each person is born free of the disease. It is spread from one person to another.

Only Takes Minute
The x-ray takes only a minute and it is not necessary to undress.

"All you do is stand up in front of the 'camera' and be 'snapped,'" said Dr. Harrison. "Between 60 and 100 persons go through the unit each hour, or about 400 persons each day. The department of health recommends that a person have at least one chest x-ray each year."

While the mobile x-ray unit can travel to any community in the county, it cannot be used except where there is a suitable power facility to operate the x-ray, Dr. Harrison explained. For this reason it is not possible to use it in some communities, although these are few and altogether the unit will be in 11 different sections of the county during its stay here.

Hermansville

Hermansville, Mich.—Miss Betty Ann Dani, Gwin, spent the weekend at the home of her parents, Mr. and Mrs. Victor Dani.

John St. Juliana, jr., of Menominee spent the weekend at the home of his parents, Mr. and Mrs. John St. Juliana.

Miss Mary K. Miketina and Miss Kathryn A. Rodman attended the ice revue in Escanaba on Sunday.

Mrs. Martin Simonie has returned from Menominee following a visit at the home of her son-in-law and daughter, Mr. and Mrs. Walter Tomich.

Angelo Arduin, jr., Milwaukee visited with his father, Angelo Arduin sr., during the past week.

Eleven children attended a party at the home of Mr. and Mrs. John Dani on Saturday, given in observance of the fifth birthday of Marilee Dani. Valentine decorations were used, Marilee received many gifts.

Housewarming Party
A housewarming party was held Saturday evening in the home of Mr. and Mrs. Angelo St. Juliana. Twenty-four guests were present. The evening was spent playing cards and lunch was served. Mr. and Mrs. St. Juliana were presented with a gift. Out-of-town guests present included: Mr. and Mrs. Marco Massignon and Mr. and Mrs. Leno St. Juliana of Kingsford.

Birthday Party
Mrs. Clarence E. Limpert entertained sixteen children at her home recently for her daughter, Glenda Gale, who observed her sixth birthday.

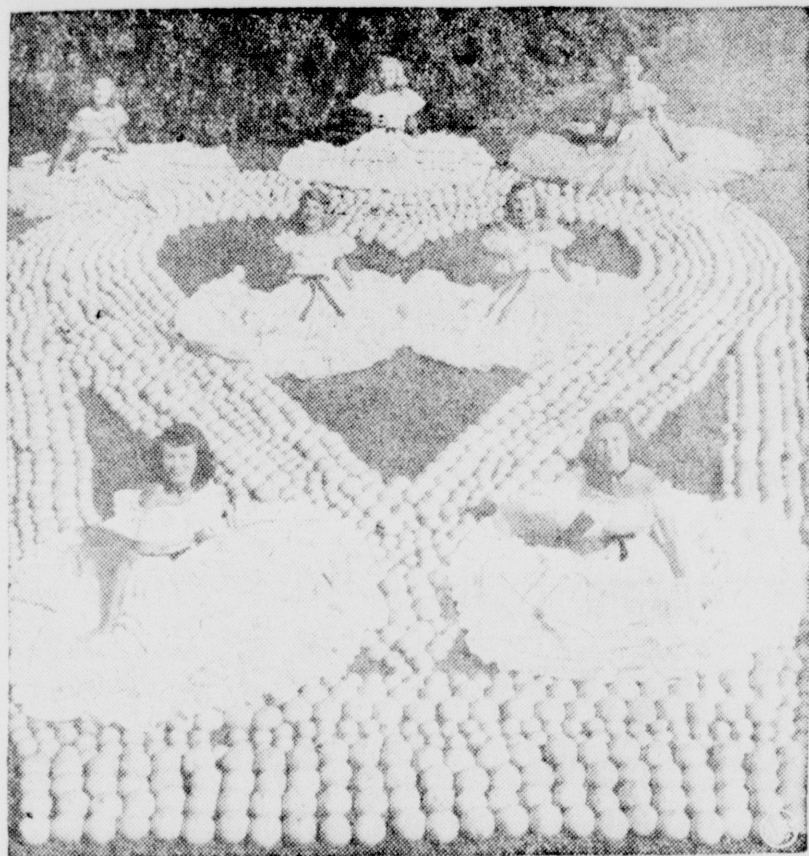

Attending were James Fish, Janice Stockero, Linda Lou Polazzo, Richard Grenier, Marilee Dani, Dolores Sartori, Angelo St. Juliana, George Callaro, Janice Swanson, Darlene Quarnstrom, David Duca, Jean Makl, Joyce Wells, Mary Ann Weaver, Diane Dusterhoff and Marjorie Allen.

Games were played and lunch was served from a table decorated with flowers.

How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Electric Ceiling Panel Heats Home

Passaic, N. J., (SS)—Electric heating panels set in the ceiling are the latest in home-heating devices. Their heating element is a special electrically conductive rubber; there are no wires in their heating area.

These radiant heating panels are a development of the United States Rubber Company here and were made under the direction of C. W. Higbee. They provide an efficient system for home heating, he says, and an economical one of electricity does not cost over one and one-half cents per kilowatt hour. They have already been tested in a dozen homes throughout the country.

The panels, when properly installed, can not be distinguished from the rest of the ceiling. They look like ordinary wallboard, and are a quarter of an inch thick. Some 70 per cent of the ceiling is covered with them in an average installation, the rest of the ceiling being covered with standard material. The whole is then painted, papered, plastered or covered with a fabric so that the ceiling is uniform in finish.

Itchy Pimples Kill Romance

Many shattered romances may be traced directly to scratching of skin blemishes. Why tolerate itching of pimples, eczema, angry red blotches and other irritations when you can get first relief with soothing Peterson's Ointment? 35c all drugists. One application detaches or money refunded. Also for tired cracked feet.

BY "tomorrow" (not 24 hours from now) we mean that day when all who

want new cars can have them.

And, when that day arrives, we'll need all your good will, all your confidence

and all your cooperation to continue to progress.

By operating our business in accordance with fair, ethical practices, we are

serving the best interests of the community today, as we'll be serving it best tomorrow.

By urging you to have us safety-check your car regularly we are helping

you meet your responsibility to yourself and to the community—in always driving a

car that's mechanically SAFE.

"-WITH MALICE TOWARD NONE,"

Lincoln's phrase still fits the attitude of the American people toward the people of a troubled world.

And the associated phrase,

"WITH CHARITY TOWARD ALL"

is no less applicable today.

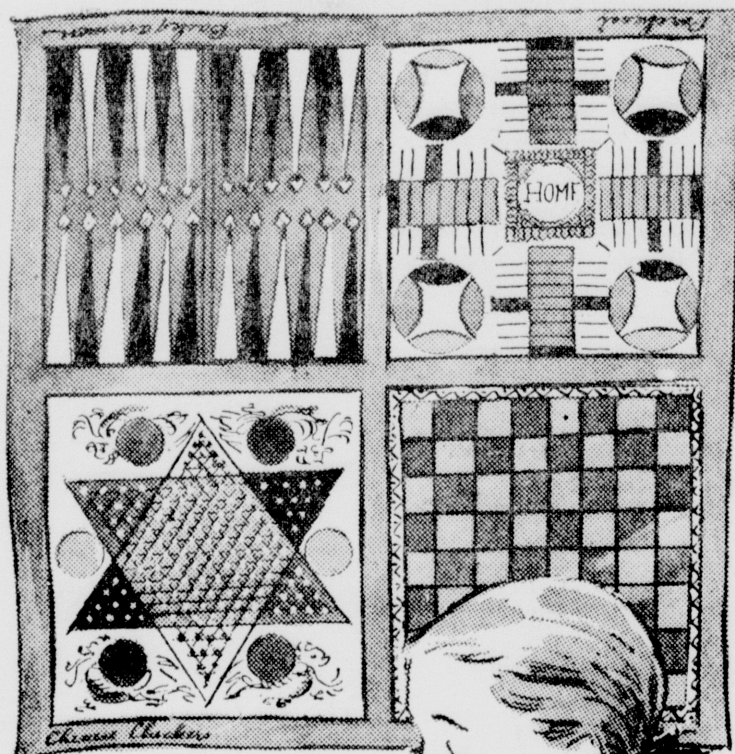

However we may differ on questions of means and matters, so long as these phrases describe the spirit of the nation we need not fear the future.
